THE FINGER LAKES

NURSERIES

of Geneva, N. Y.

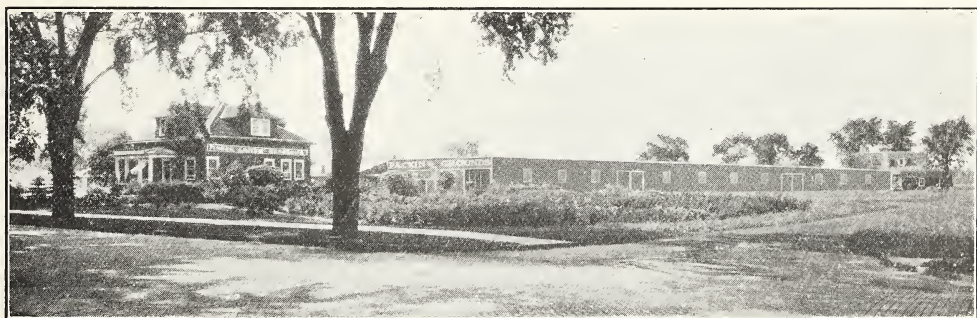

MEMBERS OF THE NATIONAL AND STATE ASSOCIATIONS OF NURSERYMEN

WE HAVE UNDER CULTIVATION 400 ACRES OF NURSERY STOCK RIGHT IN THE HEART OF THE FINGER LAKES REGION. NO BETTER SOIL ANYWHERE, NO BETTER GROWERS ANYWHERE. WE GUARANTEE OUR STOCK TO ARRIVE AT DESTINATION IN A SATISFACTORY CONDITION, TO BE ABSOLUTELY TRUE TO NAME.

VISITORS ALWAYS WELCOME

Finger Lakes Nurseries have built their extensive business on a foundation of quality stock and right service to their customers. Nature has favored Finger Lakes Nurseries with the best of soil and ideal climate for growing strong, fibrous rooted and healthy trees. Our nurseries are located right in the heart of the famous Finger Lakes Region.

Orchards Pay Yearly Profits

WONDER if we ever stop to think what a wonderful thing nature is, what it is doing for us and what more it can do if we'll only co-operate. Take, for instance, an orchard; all it needs is the laying out and planting and a reasonable amount of care and just look at the results that are possible. Why, a person with a well cared for orchard in this day and age, year in and year out, is in a class by himself. Granting that at first little or nothing is known about it, by carefully following planting directions furnished with the stock and profiting by the information which can be had free from the various State Agricultural Colleges, success is assured. Though it takes some little time for the trees to come into bearing after planting, the fact that they are in the ground immediately adds to the value of the property; and what better legacy could be left to posterity than a growing orchard which year after year brings forth proof of the foresight and vision of the one who planned and planted? There may be seasons when, because of the law of supply and demand, certain crops may be a glut on the market or because of frost, hail or any of the other elements there may be times when crops are not what they might be, yet taken all in all, year in and year out, the owner of a sizable orchard is on a par with the one with funds at interest. In some ways he may be better off for with the money market the return is pretty well stabilized, where with fruit the sky is the limit as to what can be had for the product of quality in even an average year.

This sectional view of these 300,000 Apple and Standard Pear Trees growing in our Nurseries is over a mile long.

Shrubs and Ornamentals Enhance Property

LOOK over the current magazines, especially those dealing with home problems and what do you see? Designs of various kinds to suit the various tastes of what a home should be, always pictured in color with a liberal sprinkling of vines and shrubs. The same is true of Real Estate when being marketed by the average Realtor; they always play up the beauty of the surroundings, and such beauty is only possible with nature's shrubs and ornamentals. It stands to reason then, that if these points are to be taken into consideration in the marketing of homes, it naturally follows that it is something we should all look into. Therefore, whether we wish to make our home attractive to appeal to a possible purchaser or to suit our own tastes, we must consider these facts.

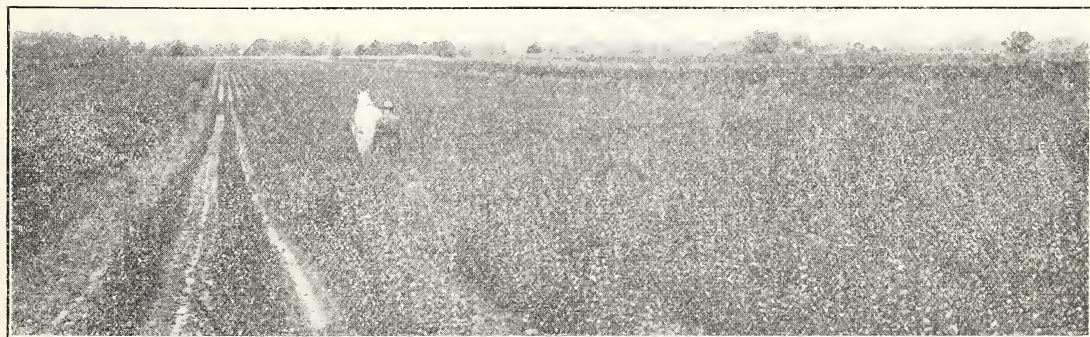

On the succeeding pages of this booklet, descriptions of many varieties of Fruits and Ornamentals are contained. Whether you desire a bush for the lawn; layout for a country home, estate or park; a fruit tree or berry bush for the back yard, a hedge or an orchard, you'll find herein suggestions to help you in carrying out your requirements.

Bear in mind that all the stock listed herein is grown by the Finger Lakes Nurseries and is the result of over forty years of knowing how. The proprietor was literally born with a spade in his hand. He comes from a family of nurserymen and has worked since he was old enough to "bill out," which was in years gone by, the favorite method of school boys making some extra spending money at the Easter vacation period.

If there is any particular variety in which you may be interested about which you might wish some additional information or if there is any problem in connection with trees and shrubs you now have about which you might desire information, we will be glad to assist you without cost or obligation, if such a thing is possible.

Any time you are in this locality, you will be most welcome to visit our Storage and Packing Plant, which covers 310 x 320 ft., and see for yourself the extent of same and study our methods. Our Nurseries, too, are always open to visitors. A visit of inspection, we are sure, would convince you that the Finger Lakes Nurseries are in a position to take care of your every want.

How to Order Correctly

Please Read Over Carefully to Avoid Errors

ORDER EARLY while our assortment of varieties is complete. The earlier you place your order, the more discount you receive.

HOW TO ORDER—Use order sheet enclosed in this book and fill out carefully, giving correct post-office address and shipping station.

WHEN TO PLANT—Planting can be done anytime the trees and bushes are dormant and the ground, not frozen. On account of our most modern and extensive storage and shipping plant, we can make shipments, anytime it is favorable for planting in YOUR section.

ORCHARDISTS AND LARGE PLANTERS should write us for special prices, stating age, size and varieties wanted.

SPECIAL 1 YEAR GRADE—We highly recommend to the commercial fruit grower, our extra heavy, well branched, fibrous rooted one year APPLE, PEAR, CHERRY and PLUM. Finger Lakes one year stock is all budded on imported French seedlings, will transplant without loss and start growing immediately.

TREES BY PARCEL POST—POSTPAID—If you live in a distant state to which we do not prepay transportation charges, you will undoubtedly be interested in the special grade of trees and plants that we offer by parcel post, postpaid.

CLUB ORDERS—If your order is small, get your neighbor to join with you in ordering. We will tie and tag each person's order separately, bundle all together in one package and ship to whatever address you desire. This will save transportation charges for you.

BOXING AND PACKING FREE—We box and pack all shipments without charge. We maintain a large force of experienced packers and only the most expert are entrusted with this work.

RATES—Less than 10 at each rate; 10 to 50 at 10 rates; 50 or more at 100 rates. At 100 rates, no less than 10 of any one variety.

WE PAY TRANSPORTATION CHARGES on all orders of \$10.00 or over to the following states: Conn., Delaware, District of Columbia, Illinois, Indiana, Kentucky, Maine, Maryland, Massachusetts, Michigan, New Hampshire, New Jersey, New York, Ohio, Pennsylvania, Rhode Island, Vermont, Virginia, West Virginia, Wisconsin, Iowa; all other states we prepay transportation charges on Parcel Post size.

FINGER LAKES GUARANTEE—We guarantee delivery in good condition. We take every precaution that is humanly possible, to have varieties TRUE TO NAME. If any prove otherwise we will gladly replace the items or refund the purchase price. Obviously, we can assume no further responsibility.

ERRORS—We exercise the utmost care in filling orders, and always put in more than is ordered, but during the rush of the busy season an error is occasionally made, and satisfactory correction will be promptly made upon notification. Keep a copy of your order for comparison. All claims for errors must be made within FIVE DAYS after receipt of goods.

REPLACING STOCK FREE OF CHARGE—In handling trees from the time of digging until packed for shipment, we exercise the most scrupulous care. In our nurseries no human caution could be more exacting than ours to keep varieties true to name and up to size and grade specified. When stock arrives in good healthy condition, we have done our part. We cannot replace free of charge stock that fails to live, from unfavorable climatic conditions, poor cultivation or other causes. Our experience has proven that the practice of replacing free has a tendency to encourage carelessness on the part of the planter. We furnish transplanting directions with every order and if directions are carefully followed Finger Lakes stock will GROW. Notify us within TEN DAYS if stock does not arrive in good condition and IT WILL BE REPLACED FREE OF CHARGE.

POSITIVELY FREE FROM DISEASE—Our nurseries are inspected regularly by New York State Inspectors. See Health Certificate on page 6.

BUY DIRECT FROM THE GROWER and save agent's commission and expenses, also mistakes that are apt to occur through repeated handling. Trees pass through so many hands before they reach the customer that agents cannot compete with our modern DIRECT to customer system in price, service or quality.

10% Discount on Cash Orders Received before March 1st 10%
8% Discount on Cash Orders Received before April 1st 8%
5% Discount on Cash Orders Received after April 1st 5%

***Orders will be sent C. O. D. if you prefer. No Discount on
Orders sent C. O. D.***

Information on Orchard Planting

Age of Bearing — Distance to Plant — Number of Trees per Acre

THIS varies greatly with the different varieties and depends so much upon the soil, climatic conditions and general care given them that it is impossible to give an absolutely accurate list. Below is a list of about the age at which different fruits will bear under average conditions. To ascertain the number of plants required for an acre at any given distance, divide 43,560 (the number of sq. ft. in an acre) by the distance between the rows multiplied by the distance between the plants in the rows. Example: plants set in rows 4 ft. apart with the plants 2 ft. apart in the rows, gives each plant 8 sq. ft. 43,560 divided by 8 gives 5,445 plants per acre.

SQUARE PLAN for Setting an Orchard. Open circle represents permanents, 40 ft. apart; and dots fillers, 20 ft. apart. The latter to be removed in twenty years. These are distances adopted by most planters.

TRIANGULAR PLAN for Setting an Orchard. A permanent, set 40 ft. apart. C and B fillers, 20 feet apart. C fillers to be removed in fifteen years. B fillers to be removed in 25 years. These are distances adopted by most planters.

	Distance Apart	Number per Acre	Age of Bearing
Apples, Std.	40 x 40 ft.	35	3 to 6 years
Apples, Dwf.	10 x 10 ft.	435	2 years
Apricots.	15 x 15 ft.	193	3 years
Asparagus.	Field 4 ft. x 18 in.	7,260	2 years
	Garden 2 x 1 ft.	21,780	
Blackberries.	8 x 6 ft.	907	1 year
Cherries.	Sours 15 x 15 ft.	193	3 to 4 years
	Sweets 20 x 20 ft.	108	
Currants.	4 x 4 ft.	2,722	2 years
Gooseberries.	4 x 4 ft.	2,722	2 years
Grapes.	8 x 8 ft.	680	2 years
Horseradish.	3 x 1 ft.	14,520	1 year
Peaches.	15 x 15 ft.	193	2 years
Pears, Std.	20 x 20 ft.	108	3 to 4 years
Pears, Dwf.	10 x 10 ft.	435	2 years
Plums.	20 x 20 ft.	108	3 to 4 years
Quinces.	10 x 10 ft.	435	4 to 5 years
Raspberries.	6 x 4 ft.	1,815	1 year
Rhubarb.	4 x 3 ft.	3,630	1 year
Strawberries.	Field 4 x 1 ft.	10,890	1 year
	Garden 2 x 1 ft.	21,780	1 year

DISTANCE FOR SETTING HEDGE PLANTS

American Arbor Vitae.	14 in. apart
Norway Spruce.	2 ft. apart
California Privet.	10 in. apart in single row
	1 ft. apart in double row
Spirea and Althea.	2 ft. apart
Japan Quince.	2 ft. apart
Barberry.	14 in. apart
Multiflora Rose.	15 in. apart

Roses generally bloom the season of planting. Ornamental shrubs, vines and hardy flowering plants generally bloom the same season or season after planting. If planted in the spring raspberries often produce considerable fruit the same year, particularly the red and purple varieties.

Sprayers

We are Selling Agents for these First-Class Sprayers. Write us.

AUTO SPRAY No. 1

Strong, simple Compressed Air Sprayer, equipped with a clog-proof nozzle. Made with 3 1/2 gallon brass or galvanized tank, as ordered. The pump is locked to the tank by means of a malleable iron cam lock, very simply operated.

Uses—For spraying trees, shrubs, whitewashing or painting with cold water paint, removing wall paper, washing windows and automobiles and all purposes.

Weight packed for shipment 10 pounds. Equipped complete for spraying with 2 feet 1/2 inch 5 ply hose, solid stream nozzle, fine spray nozzle and auto-pop. Auto-Spray No. 1-B, brass tank with Auto-Pop. \$9.50
Auto-Spray No. 1-D, galv. tank with Auto-Pop. 6.50

AUTO SPRAY No. 5

An ideal all-purpose hand sprayer made entirely of brass. It is double acting, producing a continuous spray and will generate a pressure of 200 lbs. Can be supplied with galvanized steel or brass Knapsack tank or may be used in connection with a bucket. Equipment includes 4 nozzles of special design for variety spraying. **Uses**—For the spraying of trees, shrubs, vines, field crops, for handling whitewash and disinfectants, washing automobiles, windows, fire fighting and other purposes.

Auto-Spray No. 5, pump nozzle hose and strainer. \$4.50
Galvanized knapsack, 3 1/2 gals. 3.00
Brass knapsack, 3 1/2 gals. 6.00

APPLES

EARLY HARVEST APPLES

A Productive and Profitable Variety, of Good Appearance, Ripening Early to Command Top Market Prices.

Read what our New York State Experimental Station here at Geneva has to say

WESTERN New York apple orchards paid a good return on the investment during the twenty years of 1903-23, according to evidence presented by Dr. U. P. Hedrick, Horticulturist at the Experiment Station here, in a publication issued by the Station entitled *Twenty Years' Profits From An Apple Orchard*. The average net dividend for the past two decades in a typical Baldwin apple orchard just west of Rochester, where the Station fruit men have been conducting investigations on apple growing for a long period of years, was 26.3 per cent on a land valuation of \$500.00 per acre, says Dr. Hedrick. This represents a yearly average net return of \$120.71 per acre for the same period.

"The Aucther orchard was selected for experimental work because it was as typical as could be found in the great apple belt of western New York," says Dr. Hedrick. "The trees are Baldwins, 27 years old at the beginning of the experiment, 47 now. The accounts tell what each of the orchard operations has cost, the number of bushels of fruit produced, and the selling price. In short, what the out-go and the in-come of a New York apple orchard are in its fourth and fifth decades, the prime of life of an orchard.

"From the figures that have been obtained, the problem of calculating the profits for the two periods and for the twenty years is an easy one. The yearly average net profits on a barrel of apples, graded and ungraded, for the period running from 1903 to 1913 was \$1.31 per barrel; for the second period, \$2.12 per barrel; average for the two periods, \$1.71. The average per acre for the first period, \$95.60; for the second period, \$145.83; for the two decades, \$120.71. Calculating the interest on the investment for the first decade with the land valued at \$500 per acre, we have a trifle over 24 per cent as the annual ten-year dividend for this orchard. For the second decade, the annual net dividend was 28.5 per cent; an average for the two decades of 26.3 per cent.

"The figures in this balance sheet are reassuring to apple growers. Can they be duplicated by fruit growers? I think they can. These are perfect trees in the prime of life, with no young nor decrepit orchard mates to bring

down the average. Many orchardists in the state could select a 10-acre block that has done as well or better. Fruit growers who have an aptitude at bargaining and in getting work out of men would have reduced the costs; shrewd salesmen would have added to the income."

No. 3019

DEPARTMENT OF FARMS AND MARKETS

BERNE A. PYRKE, Commissioner

Certificate of Inspection of Nursery Stock

This is to Certify that the nursery stock of **FINGER LAKES NURSERIES** of **GENEVA**, County of **ONTARIO**, State of New York, was duly examined in compliance with the provisions of Article 14 of the Farms and Markets Law, and was found to be apparently free from any contagious or infectious disease or diseases; or the San Jose scale or other dangerously injurious insect pest or pests. This certificate expires September 1, 1926.

Dated, Albany, N. Y., **SEPTEMBER 1**, 1925.

By **BERNE A. PYRKE**,
Commissioner
W. G. Stewart
Director Bureau of Plant Industry.

Clean Bill of Health

Issued by
New York State Dept.
of Agriculture to Finger
Lakes Nurseries.

The New Cortland Apple

CORTLAND APPLE

A new variety originated at the New York State Experiment Station some years ago by crossing the Ben Davis and McIntosh. Cortland has all the good qualities and none of the weaknesses of either parent. From Ben Davis it takes its ability to hang to the tree and also to stand handling. From McIntosh it gets its high quality, resembling it in taste and appearance, altho Cortland is somewhat larger in size. In color it is a beautiful red blushed with darker red. It comes into bearing about three weeks later than McIntosh. The trees are large, vigorous, of upright spreading habit, hardy, healthy and very productive. The Cortland was awarded the Wilder silver medal for new fruits by the American Pomological Society at its annual meeting in November, 1923. Professor U. P. Hedrick of the New York Agricultural Experiment Station states that the Cortland cannot be surpassed by apples grown anywhere in the world and apple growers have an opportunity to specialize in a distinctive variety that will bring renown and profit to the apple industry. Truly, "an improved McIntosh." Write for special price on large quantities.

PRICES OF CORTLAND APPLE

Grade	Height	Each	Grade	Height	Each
XXX	6-7 ft	\$2.00	X	4-5 ft	\$1.20
XX	5-6 ft	1.50	1 year	2½ ft. & up	1.25

DISCOUNT—10% off on orders received with cash before March 1st; 8% before April 1st; 5% after April 1st.

Summer Apples

EARLY HARVEST—Pale yellow fruit of medium size and very good quality. A heavy bearer. One of the earliest of the summer apples and a very desirable variety for the home. Middle to end of August.

RED ASTRACHAN—Good size, covered with thick bloom, deep crimson in color. Flesh juicy and tender. This is an excellent early cooking apple. Tree very hardy, vigorous grower, bears young. July to August.

SWEET BOUGH—A fine summer apple. Fruit is large, pale green flesh, fine and tender. Juicy and sweet and excellently flavored. Tree bears young and abundantly. August and early September.

YELLOW TRANSPARENT—A very fine early apple of good quality. Good size, clear white color tinted with pale yellow. Flavor slightly acid. Tree is hardy. Bears young, yielding large crops. Ripens late July and August.

Autumn Apples

DUCHESS OF OLDENBURG—Ripens in succession so that several pickings are required in order to secure the crop. It is in season during August and September, but may be used for culinary purposes before it is fully ripe. The tree is highly valued be-

cause of its great hardiness. September.

GRAVENSTEIN—Ripens continuously during a period of several weeks and should have two or three pickings, beginning in the latter half of September. It continues in season until early November.

Winter Apples

BALDWIN—The leading variety in the commercial orchards in New York, New England, Southern Canada, Ohio and Southern Michigan, the so-called "Baldwin Belt." The fruit is large, deep red, crisp and juicy, thick skin stands handling well, of fine flavor, slightly sub-acid. Delightfully aromatic. Is an excellent shipper and one of the leading apples used for export trade. The trees are large, vigorous, long lived and bear abundantly.

BALDWIN

One of the best known Commercial apples.
A good shipper highly marketable.

BEN DAVIS—Comes into bearing at an early age, bearing abundantly and annually. It is the most important apple known in the apple districts stretching from the Atlantic to the Pacific. The trees are hardy, healthy and vigorous. Its late blossoming period in the spring is a great advantage in some sections as the weather is then more apt to be favorable during the pollinating period and in such cases the Ben Davis often bears good crops when other varieties are more or less of a failure. The fruit is thick skinned and does not easily show bruises, handsomely colored red and makes a fine appearance when packed. December to March.

DELICIOUS—A truly delicious apple with a rich distinctive flavor. Successfully grown in any apple section; conically shaped, large, beautifully striped with red and yellow. A good keeper and shipper and a good money maker. A handsome apple that brings fancy prices on fruit stands. Tree is hardy and vigorous, bears young and abundantly. Every orchard should contain at least a few of these trees. November to April.

GANO—A red apple. Good keeper. Stands handling well. An excellent cropper and bears young. December to March.

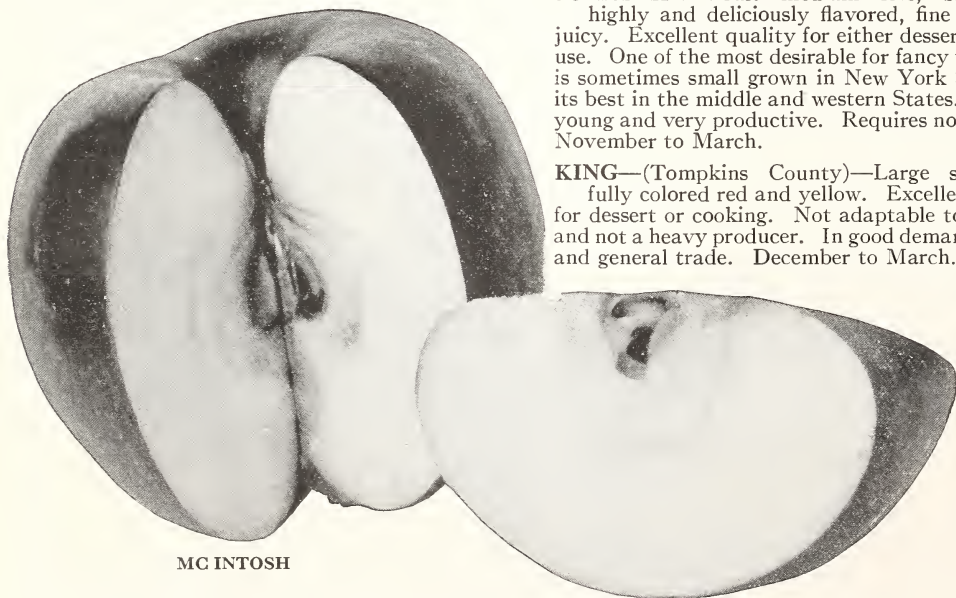

GRIMES GOLDEN—Golden yellow. Sub-acid. Tender, rich. Good early winter apple. Commercially successful for fancy box trade. November to April.

FAMEUSE—Or Snow Apple. Bright red, medium size, good reliable cropper. One of the most desirable apples of its season. Usually sells above market prices for Holiday season. October to January.

HUBBARD NONSUCH—Yellow, mottled and blushed with red. Fine grained, tender, moderately crisp, juicy, aromatic, rich, becomes mildly sub-acid mingled with sweet. Excellent variety for commercial planting. November to January.

JONATHAN—Fruit medium size, brilliant red, highly and deliciously flavored, fine grained and juicy. Excellent quality for either dessert or culinary use. One of the most desirable for fancy trade. Fruit is sometimes small grown in New York State. Is at its best in the middle and western States. Tree bears young and very productive. Requires no special care. November to March.

KING—(Tompkins County)—Large size, beautifully colored red and yellow. Excellent in quality for dessert or cooking. Not adaptable to all sections and not a heavy producer. In good demand for special and general trade. December to March.

MC INTOSH

You never go wrong when you plant the McIntosh. It has a whitish flesh color and very juicy.

Winter Apples—Continued

MC INTOSH RED—This fruit has a splendid early winter market, brings higher prices in all the eastern markets. Fruit bright red in color with tender white flesh. Very juicy and agreeably aromatic, sub-acid, becoming mild and nearly sweet when very ripe. The tree is vigorous grower and a good reliable bearer. We especially recommend it to the eastern growers. Much used as a filler. A valuable tree. November to February.

N. W. GREENING—Hardier than the Rhode Island Greening and valuable in districts where the climate is too severe for that variety. Fruit is medium to large, smooth skin somewhat waxy, clear pale yellow or greenish, oftentimes faintly blue blushed. Juicy with slight aroma, mild sub-acid. A strong grower in the orchard and reliable cropper. November to May.

NORTHERN SPY—When well grown this apple is superior to either the Baldwin or R. I. Greening in both flavor and quality and easily ranks among the very best of the winter apples. The fruit is large and attractive, bright red color. The flesh very juicy, crisp and tender. It has a well established reputation in market and because of its size, beauty and fine flavor and high quality it often sells at more than average prices. Blossoms quite late. Trees hardy and vigorous. December to March.

OPALESCENT—Clear yellow, nearly covered with brilliant red, in highly colored specimens becoming deep, purplish red. Takes a brilliant polish. One of the most attractive apples on the market. November to February or March.

RHODE ISLAND GREENING—A constant and hardy bearer in any section where apples are grown. Fruit large, greenish-yellow, flesh yellow and fine grained, tender, juicy and sub-acid. Ranks as the best cooking apple on the market. Excellent in combination with Baldwin for commercial purposes. A good shipper, well known in domestic and foreign markets. Tree grows to be strong, vigorous, and wide spreading. November to March.

For prices on Standard Apples see page 7.

DELICIOUS

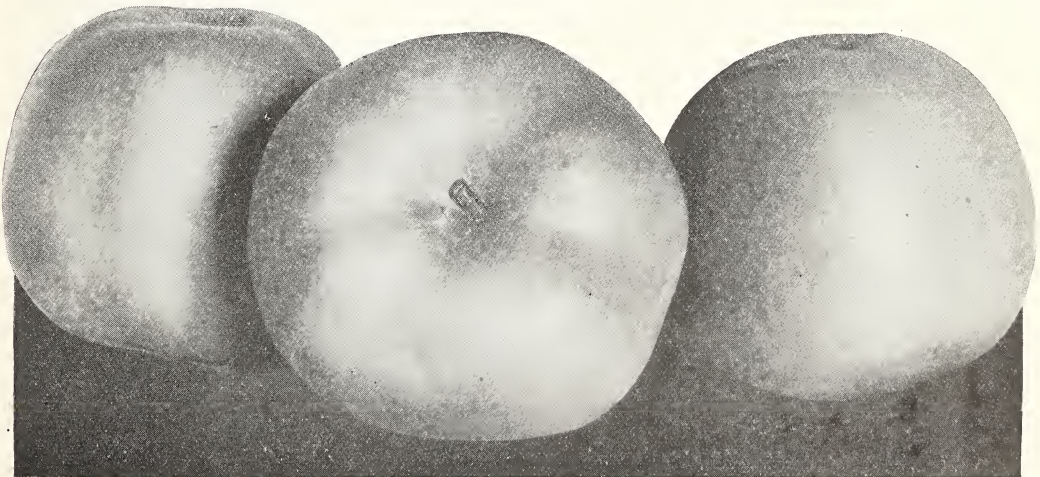

All the name implies and always finds a ready sale.

ROME BEAUTY—Red mingled with yellow. Flesh moderately fine grained, rather crisp, juicy, agreeable, mild sub-acid. Likes fertile sandy or gravelly loams. Bears early and good cropper. Especially recommended for New Jersey and along the Ohio River. Not hardy along the Canadian border. December to May.

ROXBURY RUSSET—The most popular russet apple. An excellent keeper, it is well liked for Southern trade. Also sells well in Western and Northwestern markets. Especially valuable for export trade. January to June.

SMOKE HOUSE—Yellow striped with rather a dull red and is very attractive. Comes into bearing moderately young. Perhaps better known in Pennsylvania and New Jersey than in New York. October to February.

STARK—Is regarded as a good variety for the commercial orchard because the tree is thrifty, hardy and very productive. Fruit is large to medium, pale green, becoming yellow and mottled with red. Flesh yellow, firm, juicy, sprightly, mild sub-acid. January to May.

RHODE ISLAND GREENING

One of the most popular Greenings and the best cooking apple on the market.

Winter Apples

STAYMAN'S WINESAP—This is a good commercial variety for all apple districts outside of New York and New England. Fruit rich, dark red, striped with yellow and green. Flesh firm and fine grained. Exceedingly juicy and tasty. A reliable annual cropper alternating heavy with light crops. This is easily the best of the Winesap group. A good keeper. December to May.

TALMAN SWEET—Rather attractive for a yellow apple. The fruit much esteemed for certain purposes as pickling, boiling and baking. This variety has gained reputation of being one of the hardiest of the old New England varieties. November to April.

YOUTHFUL APPLE TREES THAT GIVE PROMISE
OF PLENTY IN THE MONTHS TO COME

TWENTY OUNCE—Greenish yellow, splashed with bright red deepening to purplish red with carmine stripes. Excellent quality. Stands shipping well. Juicy and crisp. Tree vigorous and productive. October to January or February.

WOLFE RIVER—Pale bright yellow blushed with bright deep red with conspicuous splashes and stripes of bright carmine. The fruit being large, shapely and highly colored sells well because of its attractive appearance. Western growers plant it extensively. September to December.

WEALTHY—Valuable commercial variety, especially for cold climates as the tree is very hardy. The fruit is bright red and good in quality for either dessert or culinary use and sells well. Ripens unevenly and more than one picking is often necessary. The tree is a thrifty grower when young but with maturity it becomes a slow grower and somewhat dwarfish. It is largely used in orchards as a filler between stronger trees. The fruit is medium to large with thin, tough, pale yellow or greenish skin with narrow splashes of red. Flesh white, often stained with red, crisp, tender, very juicy, sub-acid. October to January.

WINTER BANANA—A comparatively new apple, very flashy in appearance and large in size, deep yellow striped with red; tender and delicious with a distinctive banana perfume and flavor. Tree comes into bearing very young, is almost an annual bearer and yields moderate to rather heavy crops. Is used to advantage commercially to follow Maiden Blush and extend the season for fruit having the general appearance of that variety. Tree is a strong grower and will thrive in any climate. On account of its early bearing and productiveness it brings quicker and larger returns than almost any other apple on the market. November to January.

The following additional varieties are such well known sorts with established reputations that no detailed description is necessary.

WAGENER—A beautiful bright red with some contrasting yellow. Fine texture, high flavor and excellent quality. October to February.

YORK IMPERIAL—A highly colored red, very attractive. Grown commercially in middle Atlantic states. Tree thrifty, vigorous grower and regular bearer.

 A home-grown apple is worth three bought at some fancy fruit stand or store. Here is the reason: These Western apples are grown and judged, for looks, but they do not have the real apple flavor of those grown right at home. Doubtless you will find some place in your backyard where you can plant your favorite fruit and bring that neglected spot to its height of beauty and utility.

Crab Apples

Crab Apples should be planted for beauty of tree and fruit, as windbreaks and for the value of the fruit. They are delicious for cooking, preserving and jellies. Excelsior is delicious for eating fresh. Same price as Standard Apples.

EXCELSIOR CRAB—Large, yellow and red, sweet and good quality. A seedling of Wealthy and of similar quality. September.

GEN. GRANT CRAB—Is a vigorous grower. Fruit in dense clusters from October to December.

HYSLOP CRAB—Fruit large, brilliantly colored dark red. Tree is a good grower and hardy. October.

WHITNEY NO. 2 CRAB—Has a smooth, glossy skin, green striped splashed with carmine. Flesh firm, juicy and rich. A great bearer. August.

*An apple a day keeps the doctor away.
An apple at night makes the dentist's bill light.*

Pears

THE home orchard is not complete without pears and they are a very profitable commercial crop in nearly all parts of the country. Pears will live on a variety of soils, but succeed exceptionally well in a hard clay soil. The quality of the pear is much improved by picking before maturity and by proper ripening indoors.

PRICES OF ALL VARIETIES OF STANDARD PEARS

Finger Lakes have over 150,000 budded on Imported French Seedlings.

Grade	Age	Height	Caliper	Each	Per 10	Per 100

PARCEL POST—First class, 3 ft. trees sent by Parcel Post, postage prepaid, for 90c each; \$8.50 for 10.

RATES—Less than 10 at each rate; 10 to 50 at 10 rate; 50 or more at 100 rate; at 100 rate, no less than 10 of any one variety.

DISCOUNT—10% off on orders received with cash before March 1st; 8 % before April 1st; 5 % after April 1st.

BEURRE D'ANJOU—Large greenish-yellow fruit tinged with dull red and russet, flesh white, buttery, fine grained and richly flavored. Looks and keeps well until mid-winter. Tree is straight and vigorous grower, long lived and productive. October.

BEURRE BOSCH—One of the best of the russet varieties, having distinctive long neck. Highly flavored and well suited for storage and marketing. Tree is reasonably strong but not especially straight grower. October to December.

BARTLETT

BARTLETT—General favorite. Large, beautiful and excellent, yellow tinged with red, buttery and melting, rich musky flavor. Tree bears abundantly, ripens in September.

BEURRE CLAIRGEAU—A light yellow shaded with crimson; is a very attractive pear. It bears early and fruit keeps a long time after being gathered. October and November.

CLAPP'S FAVORITE—This is a very large, long, yellow pear, tinted with crimson and russet. Flesh is fine grained and white, juicy and exceptionally tasty. Tree is a hardy variety, good grower and producer. It can be planted extensively for commercial purposes; generally about ten days ahead of Bartlett. In September.

DUCHESS D'ANGOULEME—Greenish yellow with patches of russet. A strong, vigorous grower. Ripens in mid-season. October to November.

FLEMISH BEAUTY—Has long been considered an old and highly esteemed variety. Its color a greenish yellow and brown; is very juicy and sweet. Ripens early in season. Tree vigorous and productive. September to October.

Showing a branch bearing Kieffer Pears.

KIEFFER—A handsome pear of rich yellow, tinged with red, somewhat russet. Very valuable for canning purposes. Commands the highest price on the market. Immensely productive, bearing early in season. October.

LAWRENCE—Moderate grower; has a rich flavor; is also a yellow pear and very productive. November and December.

SECKEL—One of the richest and finest varieties known; small yellowish russet with red cheek. Flesh whitish and buttery, very juicy. September.

SHELDON—Large, round, greenish-yellow in color, covered with light russet. It is very juicy, and has a tasty flavor. The tree is a fine grower and a good bearer. October to November.

VER MONT BEAUTY—Of medium size, good quality, hardy and very productive. October.

WORDEN SECKEL—Fruit is medium size, borne in clusters, very juicy and buttery. Ripens late. Will keep in good condition until December. Color yellow with light red. Tree is hardy and enormous bearer. September.

Dwarf Fruit Trees

DWARF Fruit trees are especially valuable for the city or village garden where space is limited. They can be planted closer together than Standard trees, and come into bearing much sooner, usually the second season after planting. Their color, quality and flavor are identical with that of Standard trees, but as a rule, the fruit is much larger. These trees can be easily picked from the ground instead of using ladders, on account of their dwarf habits. You can plant Dwarf fruit trees for a hedge along your garden or through your garden, requiring very little space. Used as a filler in an orchard, they are of great commercial value. We highly recommend the following varieties.

BEURRE D'ANJOU

PRICES OF DWARF PEAR TREES

<i>Budded on Quince Stock</i>					
Grade	Age	Height	Each	Per 10	Per 100
XXX	2 yr.	4-5 ft.	\$.85	\$7.50	\$50.00

Plums

PLUMS do well on any land, that is not too wet and will withstand the most severe winter, and being generally free from disease, the plum is commercially profitable and most desirable for family use. The following varieties we consider are the best for size, flavor and hardiness of trees.

PRICES OF ALL VARIETIES OF PLUMS

Over 100,000 trees, budded on imported French Myrabolan Plum Seedlings

Grade	Age	Height	Caliper	Each	Per 10	Per 100
XXX	2 yr.	5-7 ft.	3/4" and up	\$1.00	\$9.50	\$65.00
XX	2 yr.	4-6 ft.	5/8"-3/4"	.95	9.00	60.00
X	2 yr.	3 1/2-5 ft.	1/2"-5/8"	.90	8.50	55.00
Special	1 yr.	3 ft. and up	Strong Buds	.85	8.00	55.00

PARCEL POST—First class, 3 ft. trees sent by Parcel Post, prepaid, for 90c each; \$8.50 for 10.

RATES—Less than 10 at each rate; 10 to 50 at 10 rate; 50 or more at 100 rate; at 100 rate, no less than 10 of any one variety.

ABUNDANCE—The chief asset, which has given the variety its great popularity, is its name, abundance in fruit. Tree bears early, a pinkish red changing to a darker red mottled with thin bloom. August.

BRADSHAW—The trees grow large and well formed, bear regularly and heavily. The plums are large, attractive in appearance, being a light purplish red changing to dark reddish at maturity, which occurs in July.

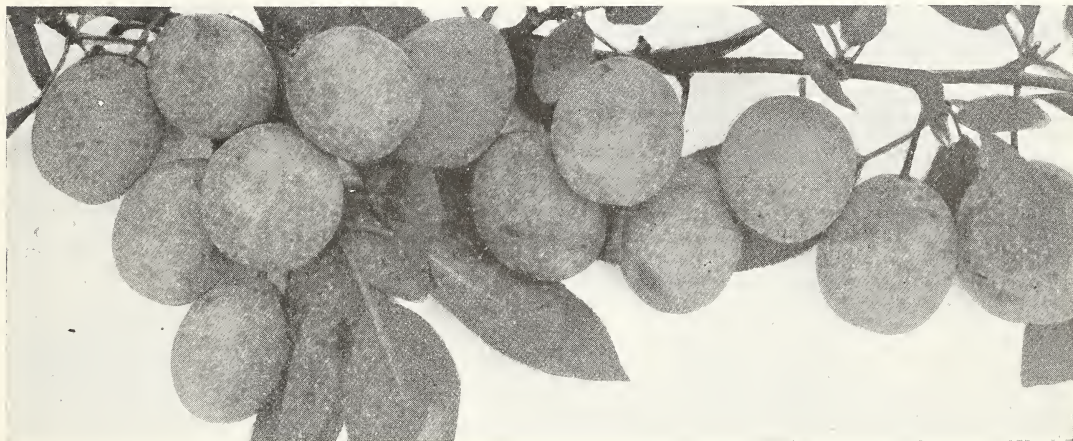

BURBANK—Is handsomely colored dark red over a yellow ground. It is a very desirable variety bearing early in July.

DE SOTO—The qualities which commend it are a tree rather suited to the orchard than other varieties. The trees, too, are enormously productive. De Soto bears in July and is of a greenish yellow color.

RED JUNE—Closely follows Abundance and Burbank in popularity. The color is a mottled garnet-red overlaid with thin but very distinct and delicate bloom. Ripens early in July.

REINE CLAUDE—For the qualities that gratify the sense of taste, richness of flavor, consistency and texture of flesh, the Reine Claude is unsurpassed. The trees are very productive and bear regularly. Fruit ripens in July and is of yellowish-green.

SHIPPER'S PRIDE—Bears late in season, very attractive color, being brownish drab with a red tinge. Quite popular with growers in the East. A good shipper. Trees hardy and productive. September.

SHROPSHIRE DAMSON

GERMAN PRUNE—Large dark blue, rich and agreeable flavor; well thought of for drying and therefore, commercially desirable. September.

ITALIAN PRUNE—Bears late in season, greenish red color, delicious fruit, good eating or for culinary use. September.

LOMBARD—Probably the most widely planted in America, medium size, violet-red in color, hardy and productive, having a good market value. August.

MOORE'S ARCTIC—Of medium size, skin purplish black with thin, blue bloom. It is claimed to be the hardest plum grown. Tree is healthy, bears early and very abundantly. September.

OCTOBER PURPLE—A late plum. Its color, dark red over a yellowish green ground, is very attractive. This variety is used extensively for shipping.

SHROPSHIRE DAMSON—Is the best known of the Damsons, being found not only in nearly all commercial plantations but in the smallest home collections as well. Shropshire is enormously productive, bearing its load of fruit year after year until it is a standard among fruits for productivity and reliability in bearing, which is late in season. October.

WICKSON—The largest of the oriental plums, if not the largest of all plums. Its handsome color of red and distinct form make it very attractive, bearing in September.

YELLOW EGG—Large, golden-yellow, egg-shaped fruit, sweet and mild in flavor; flesh somewhat coarse, but excellent for cooking purposes. September.

YORK STATE PRUNE—Originated in Western New York. Large, blue with rich, juicy flesh, well thought of by big fruit growers, profitable to handle. Strong grower and productive bearer. August.

Peaches

ELBERTA

The leading commercial Peach.

THE most universally planted fruit for home use. Peach trees will thrive wherever corn or potatoes can be raised. In planting, prune the tops to a clean whip, and each succeeding year, prune the shoots of last year's growth.

Orchardists should plant peach trees owing to the increasing demand for the fruit and old orchards are dying out much faster than new ones are planted. They come into bearing very young and are very successfully planted as fillers in apple orchards, for they make ground space that is practically idle, pay well until the apples come into bearing. Plant our healthy well rooted peach trees and realize handsome returns on your investment.

PRICES OF ALL VARIETIES OF PEACH TREES, EXCEPT WILMA

Grade	Age	Height	Caliper	Each	Per 10	Per 100
XXX	1 yr.	4½ ft. and up	$\frac{9}{16}$ " and up	\$.85	\$6.50	\$40.00
XX	1 yr.	3½-4½ ft.	$\frac{7}{16}$ "- $\frac{9}{16}$ "	.75	5.50	35.00
X	1 yr.	About 3 ft.	$\frac{5}{16}$ "- $\frac{7}{16}$ "	.60	5.00	25.00

PARCEL POST—First class, 2 to 3 ft. trees sent by prepaid Parcel Post for 65c each; \$6.00 for 10.

RATES—Less than 10 at each rate; 10 to 50 at 10 rate; 50 or more at 100 rate; at 100 rate, no less than 10 of any one variety.

DISCOUNT—10% off on orders received with cash before March 1st; 8% before April 1st; 5% after April 1st.

Orchardists Should Write for Special Price

BEER'S SMOCK—Is considered to be an excellent fruit for culinary purposes. Matures late. Color, greenish-yellow speckled and mottled with dull, dark red. A regular and enormous bearer. Late September and October. Freestone.

BELLE OF GEORGIA—Elicits praise from all who know it because of the great beauty of its fruits. At its best, it is one of the glories of the peach orchard, the fruits being large, creamy-white with a beautiful crimson cheek. Is an excellent shipper. August. Freestone.

CARMAN—A general favorite in nearly every peach region on this continent. There is much merit in the fruits, especially for a peach ripening so early. It

is a brilliant red, splashed with a darker red on a creamy-white background. Fruit matures early. August. Freestone.

CHAIR'S CHOICE—Long a prime favorite and rival of Late Crawford in popularity. Color golden yellow, blushed and splashed with dull red. Flesh yellow, firm, juicy, pleasant flavored. Freestone. October.

CHAMPION—This is the best of the white freestone varieties. Skin creamy-white with red flush. This is also a desirable variety for commercial orchards. It is extremely hardy and of uniform good quality. Late August. Freestone.

Peaches—Continued

CRAWFORD'S EARLY—This peach has all of the characters that gratify the taste. Besides being one of the very best in quality, it is one of the handsomest peaches. Color, rich red splashed and mottled with darker red and golden yellow. The flesh is beautiful and perfectly free from the stone. Matures in mid-season. Tree is vigorous and productive. First of September. Freestone.

CRAWFORD'S LATE—Fruit is unsurpassed in appearance and scarcely equalled in texture of flesh and richness of flavor. Color, tints of red and yellow. Fruit matures late. Used extensively in commercial orchards. Last of September. Freestone.

HILL'S CHILI—Medium sized, yellow peach. Skin yellow, shaded with dark red. Very rich and sweet. First of September. Freestone.

OLD MIXON FREE—A rich, luscious, white-fleshed peach, ripening late. September.

ROCHESTER—It recommends itself for commercial purposes and home consumption. It is of good size, yellow, freestone and among the best shippers. Fruit golden yellow and red, highly flavored. Juicy and delicious. The tree is a hardy and young producer. Middle of August. Freestone.

VALUABLE PEACH COLLECTION—No. 150

10 First class, 3½ to 4½ ft. trees for \$4.00 (Regular Catalogue price \$5.50)			
2 Elberta	1 Early Crawford	1 J. H. Hale	
2 Carman	1 Champion	2 Rochester	1 Willett

CROSBY—Is noted for its hardiness and bud so marked, is often called the "Frost-Proof" Peach. The quality is excellent. The rich, yellow, freestone flesh is delicious to the taste, either as a dessert or as a culinary fruit. Matures late in season. Last of September.

ELBERTA—Leads all peaches in quantities planted, the most popular in the market. It is grown with profit in every peach growing state in the Union. Being hardy in budding and a consistent yielder of good crops, adaptable to almost any soil and climate, enables Elberta to hold undisputed supremacy. Fruit is large, golden-yellow with bright red cheek, firm, well flavored and juicy. Tree an early bearer. Early September. Freestone.

GLOBE—A rapid, vigorous grower and enormous bearer; flesh firm, juicy; color, yellow shaded with reddish-crimson. Matures late in season. September.

GREENSBORO—A valuable early variety. Tree is extremely hardy and is therefore recommended for sections where difficulties are experienced with other varieties. Late July. Freestone.

HALE—This is a new peach combining the most desirable qualities of the other varieties. Brilliantly colored with deep golden yellow and red. Flesh deep yellow, firm and fine grained. Stone is exceptionally free. Tree is enormously productive, good keeper and shipper. Late August. Freestone.

SALWAY—A yellow fleshed freestone peach of attractive appearance and of good quality; one of the best for canning, preserving and evaporating. The trees are hardy, healthy and very productive. Fruit matures very late. October. Freestone.

STUMP—Has long been a favorite variety of value for local markets and home use. Peach is very large; white, with bright red cheek. Freestone; ripens last of September.

TRIUMPH—An extra early yellow fleshed peach. Tree medium size; skin very tender; juicy and sweet. July. Freestone.

WILLETT—Bright yellow, mostly covered with red. Flesh yellow, juicy and rich. Tree is a strong grower and free bearer. Bears last of September.

YELLOW ST. JOHN—This peach has maintained great popularity for home orchards and in many peach regions is grown for the markets. Fruit matures early. Color, deep yellow, blushed and splashed with carmine. Middle of August. Freestone.

WILMA—A very promising new variety. Coming about ten days later than the Elberta makes it very satisfactory to the fruit grower. Trees are very hardy, productive and vigorous. The fruit is large, yellow mottled and blushed with red, juicy flesh, good flavor and quality. Price of XXX Grade 90c each; \$8.00 per 10; XX Grade, 75c each; \$6.50 per 10.

Quinces

No Finer Fruit for Jellies, Preserves and Canning

PRICES OF QUINCE TREES

		Each	Per 10	Per 100
2 yr. old trees 4-6 ft.	XXX	\$1.15	\$10.00	\$75.00
2 yr. old trees 3-4 ft.	XX	1.00	9.00	70.00

CHAMPION—A beautiful large quince of a golden yellow color, bears abundantly quite late in season. Last of October.

MEECH'S PROLIFIC—Ripens earliest of all quinces. Quality unsurpassed and quince itself is very large, of a yellowish color.

ORANGE—This fruit, of a bright golden yellow, is considered one of the best for its quality. Ripens in October.

REA'S MAMMOTH—Like all quinces is a bright yellow; ripens early and its fruit is very large.

ORANGE QUINCE

CHERRIES

NAPOLEON BIGARREAU OR ROYAL ANN

PLANT cherry trees for big returns on your investment. The rapidly increasing demand for cherry juice is making cherry orchards more profitable every year. Plant them on any soil that is not wet, however for best results, plant on sandy or gravelly soil. Cherries are very prolific, easily grown, and very little pruning is necessary.

Every garden should have a few sweet cherries and some sour varieties. Sour cherries are more hardy, but are of slower growth. Commercially they are more profitable than sweets.

PRICES OF SWEET AND SOUR CHERRIES, ALL VARIETIES

Over 150,000 budded on the best Imported French Stock

Grade	Age	Height	Caliper	Each	Per 10	Per 100
XXX	2 yr.	5-6 ft.	$\frac{3}{4}$ " and up	\$1.10	\$10.00	\$70.00

Sweet Cherries

BING—One of the largest of the black sweet cherries.

Flesh firm, but juicy. A good shipper, exceptionally successful in the Pacific Northwest, enjoying good success in the Central and Eastern sections also. Tree is a vigorous, upright grower and producer. July.

BLACK TARTARIAN—Is widely known as the favorite dooryard and roadside sweet cherry. It has a very sweet, rich flavor and is earlier than most sweet cherries, bearing in June. Excellent quality.

GOVERNOR WOOD—Heart shaped and large. Light yellow and red. Tasty and sweet. We highly recommend this variety on account of its earliness, beautiful appearance and delicious flavor. Tree is a strong grower. Last of June.

HOY—Unequaled by any other cherry in its high quality and richness of flavor, equals the finest

California cherries in size. Amber covered with bright red. One of the most valuable sweet cherries grown. Bears in June.

LAMBERT—Among the best in quality, deep red in color. Flesh firm and rich. Especially successful in the Pacific Northwest. The tree is rugged, a strong grower and bears abundantly. Well worth growing wherever sweet cherries can be grown.

NAPOLEON BIGARREAU—Leads in the firm fleshed sweet cherries. It takes its place by virtue of its large size, handsome appearance and high quality of the fruit. The flavor is rich and sweet, which with the abundant juice and firm, cracking flesh, makes this a most delicious and refreshing cherry for dessert. Tree is an upright grower and a heavy bearer, recommended generally for commercial purposes. June.

Sweet Cherries—Continued

ROCKPORT BIGARREAU—A yellowish fruit; the flesh is rich, sweet and tender. The trees are large, vigorous and very fruitful, maturing in early July.

SCHMIDT'S BIGARREAU—Hold a high place as a money-maker; large size, unsurpassed in this respect by any other black cherry in this region. Its round, plump form and glossy black color which tempt the eye; crisp, firm, juicy flesh and sweet rich flavor, dark ruby red color under the skin, makes it as pleasing inwardly as outwardly. Ripens in early July.

Sour Cherries

EARLY RICHMOND—Has long been the leading sour cherry of its season, the first of its kind in the markets. It is a very good culinary fruit and when well ripened may be eaten out of the hand. It is very vigorous, healthy and fruitful. Early Richmond is indispensable in every home and commercial orchard for an early cherry maturing in July.

ENGLISH MORELLO—Is the best of all its group and is the standard late sour cherry in North America. The fruit is handsome in appearance, bears harvesting and shipping well. Excellent for culinary purposes. Ripens in August.

MONTMORENCY—The most popular sour cherry grown in North America. Its supremacy is unquestioned. It leads in the demands for this fruit in the markets, for the cannery and for home use as a culinary cherry. Cannot be surpassed by any other sour cherry for vigor, health and productiveness. Less susceptible to brown rot than any other variety, because of its firm flesh and thick skin. It stands shipping well. Best money maker in the cherry orchard. Fruit is beautiful, large, red, acid. Last of June.

BLACK TARTARIAN

MAY DUKE—Is one of the oldest and the world over one of the most popular cherries. While one of the earliest of its class, it may be left to handle for a month or six weeks. Its long period of ripening makes necessary several pickings. Matures in June.

WINDSOR—The leading late sweet variety and one of the most profitable of the hard fleshed cherries. Both fruit and trees deserve the approbation of cherry growers. In color the cherries meet the market demand, buyers preferring a dark color sweet cherry. This variety stands well for shipping. July.

YELLOW SPANISH—Bears abundantly and regularly and comes in bearing young with a crop well distributed. For centuries Yellow Spanish leads as the best variety of all the Biggareaus. Fruit matures in July.

FAVORITE FRUIT TREE COLLECTION No. 170

10 Assorted fruit trees: XX grade for 8.00

(Regular Catalogue price \$9.30)

1 Rochester Peach
1 Napoleon Bigarreau
1 Lombard Plum

1 Bartlett Pear
1 Wealthy Apple
1 York State Prune
1 Montmorency Cherry

1 Kieffer Pear
1 Northern Spy
1 Hyslop Crab

Apricots

THE apricot has a distinct flavor and is one of the best of market fruits. The trees bear young and most profusely, and it is a most welcome fruit, ripening between the cherry and the peach, which explains the reason for its great demand and high price. Like the peach in appearance but resembles the plum in quality and texture. For drying and canning it has no superior. Note our special price.

PRICES OF APRICOT TREES

Grade	Age	Height	Caliper	Each	Per 10	Per 100
XXX	2 yr.	4½-6 ft.	$\frac{9}{16}$ " and up	\$1.00	\$8.50	\$65.00

Special	1 yr.	2½ ft. and up	Strong Buds	.85	7.00	55.00

J. L. BUDD—Ripening in August; is a very vigorous grower and profuse bearer. Fruit large, white with red cheek; sweet, juicy. The best variety.

EARLY MOORPARK—Is a deep orange or brownish-red; flesh firm and juicy; ripens in early August.

Finger Lakes Extra Large Fruit Trees for Quick Growth and Early Fruiting

FOR quick results we recommend these extra size garden trees. They come into fruiting very early, owing to the fact that they have been once transplanted and scientifically treated. We have cared for these trees until they have developed to such a stage they will establish themselves quickly and fruit young. For a few cents more, you can have fruit in your own garden in a very short time.

Planting Instructions—Cut off about six inches of the limb growth, prune off bruised ends of roots, if any, make a smooth cut, dig hole deep enough so that the tree will be buried to the same depth as when standing in the nursery row, or up to the collar. Soak roots in water one-half hour, place tree in hole, fill in one-fourth, tread well; another one-fourth, tread well; the third one-fourth, tread well; then finish filling and tread firmly so that when the tree is set it would require a strong man to pull it out.

Finger Lakes Nurseries,
Geneva, N. Y.

Gentlemen: Please accept my sincerest thanks for the sketch, which I have just received. It is a plain, accurate and wonderfully helpful piece of workmanship.

You will find enclosed an order and a check in payment of same. Now the date of shipment we are going to leave to you, but we would ask you to kindly let us know when we may expect to receive it.

I take this opportunity again to thank you for your splendid sketch, and to assure you that we will earnestly try to show that your work was justified by sending you a more substantial order in the very near future.

Very truly yours,
THOMAS M. REILLY.

Syracuse, N. Y.
May 7, 1925.

Finger Lakes Nurseries,
Geneva, N. Y.

Gentlemen: Your shipment of shrubs was very satisfactory and TRUE TO NAME, which seems impossible to get here.

Very truly yours,
MRS. C. L. MEADE.

Queens Village, N. Y.
March 14, 1925.

Finger Lakes Nurseries,
Geneva, N. Y.

Dear Sirs: The goods arrived yesterday in fine condition, everything very satisfactory. Any business we can send you, we will gladly do so.

Thanking you for past favors, we remain

Very truly yours,
W. J. PERRIN.

Fairhaven, Mass.
April 17, 1925.

Finger Lakes Nurseries,
Geneva, N. Y.

Gentlemen: Trees and shrubs arrived O. K. I am very much pleased with quality and condition and am sending another order herewith, and Post-Office money-order for same.

Very truly yours,
ALLAN R. HOWE.

Norwalk, Conn.
May 8, 1925.

Finger Lakes Nurseries,
Geneva, N. Y.

Gentlemen: My order in good condition. I am much pleased with the plants and will promise you my future patronage. Enclosed please find money-order for another order.

Very sincerely,
G. EVANS.

United States Department of Agriculture in the *Farmer's Bulletin* says: "If the farmer makes his purchase direct from the nurseryman he will save the expense of the agent and is less liable to mistakes and injury that may occur through repeated handling."

Blackberries

BLACKBERRIES will yield as high as 4000 quarts per acre, if thoroughly cultivated, and the fruit will sell right out of the field. Planted between the rows of young trees, they will not only pay for themselves, but pay for the trees as well. A liberal use of berries and other good fruits will save doctor's bills. Will do well on land where other fruit could not succeed.

Price, per 10, \$1.50; per 25, \$2.75; per 100, \$7.00; per 1000, \$45.00.

BLOWERS—"The giant of all blackberries." An upright, mammoth grower; very hardy and enormously productive. A single plant produced over 2000 berries. It commences to ripen about the middle of July and bears about two months.

EARLY HARVEST—A variety of great promise, being exceedingly early in time of ripening and always reliable. An enormous bearer. Berries sweet and of the highest quality.

ERIE—Ripens earlier than any other sorts. A strong grower and great bearer, producing larger, sweeter berries.

ELDORADO—A strong growing, hardy type. Berries are large and exceptionally black. Sweet and well flavored and almost entirely free from hard core. Keep well after picking.

RATHBUN—A sweet, luscious, high flavor fruit; very large with small seeds. Plant strong and erect. This variety carries well to market.

SNYDER—Medium size. Plants hardy, healthy and vigorous. This blackberry bears well and is considered a profitable berry.

Strawberries

FOR the home garden or for commercial planting, strawberries come first among small fruits. If planted for home use, a very small bed will yield a large amount of berries. Commercially, they rank among the highest money-makers. Strawberries are the fruit for big profits on small space. Plants should be kept moist until ready to plant.

Our plants are taken from young beds, fresh dug before shipment; plants are well rooted. Buy strawberry plants now and start growing one of the best and most profitable crops to be grown. Strawberries may be sent by mail.

Price, per 25, \$1.00; per 50, \$2.00; per 100, \$3.00; per 1000, \$16.00.

BIG JOE—Berries are large, brilliantly red, exceptionally fine in appearance, therefore have a good market value. Very good shipper, equally good in quality. Ranks with the best in productivity. Perfect.

BRANDYWINE—Mid-season; produces large, bright crimson berries of high quality. Succeeds best on deep, rich soil. Perfect.

EVERBEARING (Fall Bearing)—This is one of the newer varieties that promises to be a decidedly more prolific sort than Superb, which it resembles in appearance of fruit. It is claimed to produce fine, dark red, delicious strawberries from July until frost and to be so very productive that 256 berries have been found on one plant. Varieties, Superb and Production.

GIBSON—Begins to ripen early and continues to produce until late; berries extra large and vines are generally well filled. It is a strong grower, withstanding adverse weather well. Perfect.

GLEN MARY—Still retains its popularity because of its tremendous productivity. It is without doubt one of the most satisfactory varieties to grow. Perfect.

PROLIFIC—Comparatively new variety, but nevertheless, being planted extensively for commercial purposes. Berries are extra large, well colored, juicy and possessing a pleasant aroma. Plants are vigorous and productive. Perfect.

SENATOR DUNLAP—A fruit of real merit and well thought of by careful buyers. Large, regular and attractive; dark red in color. Ripens early and can be counted on to bear nearly a month. Perfect.

TANGY IN FLAVOR AND HIGHLY PROFITABLE

Raspberries

OUR raspberries have been inspected by the Department of Agriculture, State of New York, and found to be free from injurious diseases, infecting the raspberry, commonly known as Mosaic, leaf-curl and rosette (or Eastern blue stem). Raspberries succeed best in a rich, mellow soil. They should be planted four feet apart in rows five or six feet apart. They are easily cultivated, only requiring manuring and cutting out of dead wood and suckers. Old canes should be removed after bearing season is over. If the location is much exposed, plants may be protected from severe cold by raising the earth between the hills into a bank or mound. Then bend down the plants to meet, fasten them and cover them with earth or coarse litter. In the Spring uncover and tie to stakes.

PRICES OF RASPBERRY BUSHES

10 for \$1.50, 25 for \$2.00, 100 for \$4.50, 1000 for \$35.00.

Red Raspberries

CUTHBERT (Queen of the Market)—A good quality, medium season berry; large, sweet and palatable; rich crimson in color. One of the leaders in all markets.

HERBERT—One of the very best; season medium. Ranks first in hardiness; bright red in color; very sweet and luscious.

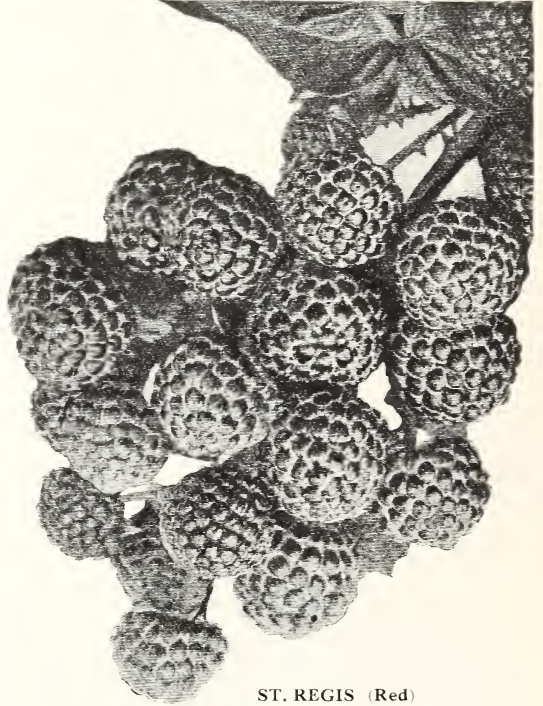

KING—A bright crimson, moderately firm and of excellent quality. This is the earliest red raspberry.

LOUDON RED—Ripens with earliest and hangs to the last. In productiveness it is beyond any red raspberry known and is a famous shipping berry.

MARLBORO RED—Large size, light crimson, good quality and firm. Hardy and productive.

RED JUNE—Early red raspberry. It has large berries and yields bountifully. Has proven itself to be the most profitable early variety wherever tried.

ST. REGIS—This everbearing red raspberry bears the first season. One of the greatest ever introduced. Plants of the St. Regis put out in the Fall or early April gave ripe berries on the 20th of June. For four weeks thereafter the yield was heavy. The St. Regis is the only Raspberry, as far as known, that is practically sure to produce a crop of fruit the season planted.

ST. REGIS (Red)

Purple Raspberries

COLUMBIAN—For canning purposes it is undoubtedly the very best raspberry in cultivation, yielding as high as 8000 quarts per acre. Perfectly hardy and grown largely for evaporating, retaining color, form and flavor distinctive.

Black Raspberries

CUMBERLAND—An early season, high quality berry; largest of all the black raspberries; possesses shipping qualities as good as any; a good variety for the market.

GREGG—Large black raspberry of good quality. A hardy vigorous grower and prolific bearer.

PLUM FARMER—Hardy grower, good for all berry sections. Thick meat with a dark and brilliant bloom. Ripens early.

Dewberries

AUSTIN—Very early, of good quality. Highly flavored and considered an excellent buy.

LOGAN BERRY—Ripens early, soon after strawberries. Fruit very large, of dark red color. Has a delicious flavor.

LUCRETIA—The best and most dependable dewberry. Large, jet black, highly flavored and hardy. A profitable market sort.

Philadelphia, Pa.
May 3, 1925.

Finger Lakes Nurseries,
Geneva, N. Y.

Gentlemen: Everything received from you has been first class and all grew right away after planting. Mrs. Ammon and I both are well pleased with quality and also selections where it has been left to you.

Very truly yours,
ROSCOE A. AMMON.

Phoenixville, Pa.
April 16, 1925.

Finger Lakes Nurseries,
Geneva, N. Y.

Gentlemen: Received the grape vines in good condition and am very well pleased with them. I wish to order the following peach trees.

Very truly yours,
M. F. MONAHAN.

Gooseberries

THE interest in and demand for this fruit is constantly growing. It is cultivated more and more extensively both for home use and market. Good plants should produce 200 bushels per acre the third year after planting; 300 to 400 bushels the fifth year.

CHAUTAUQUA—Very sweet and highly flavored. Has a thick skin and fruit is large and smooth. Quality is excellent. 2 year old bushes 50c each; 10 for \$4.50; 100 for \$40.00.

DOWNING—Large, handsome, pale green gooseberry of splendid quality. Soft and juicy; excellent for family use and profitable for market. 35c each; 10 for \$3.00; 100 for \$25.00.

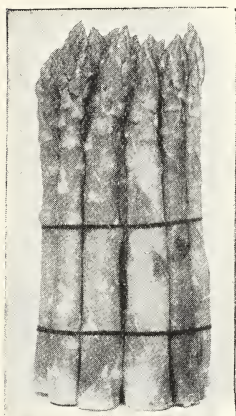

Due to a Federal Quarantine, we can ship Currant and Gooseberry bushes to the following States only: Connecticut, Illinois, Indiana, Massachusetts, Michigan, New Jersey, Ohio, New York and Pennsylvania.

HOUGHTON—A very productive, hardy berry of pale red; sweet and juicy. A vigorous grower and abundant bearer. 2 year old bushes, 30c each; 10 for \$2.50; 100 for \$22.50.

JOSSELYN (Red Jacket)—An American seedling of large size, prolific and hardy; of best quality. Vigorous grower and productive. 2 year old bushes, 50c each; 10 for \$4.50; 100 for \$40.00.

Asparagus

THE earliest and finest of Spring vegetables, very profitable, rich and delicious flavor; very healthy. A bed once planted suffers no deterioration for thirty years or more, if it is properly attended to and well manured. Every home garden should have a patch of Asparagus.

PRICES 2 YEAR OLD STRONG PLANTS

Per 25, \$1.25; per 100, \$3.00; per 1000, \$16.00.

PALMETTO—An early and great yielder, and very regular and even in its growth. Has been tested both North and South and has proved entirely successful in every instance. Particularly delicious in flavor.

WASHINGTON—Newest variety. Rust proof. Every farmer should set one-half to one acre; pays big; easily kept and brings in money early in season.

CONOVER'S COLOSSAL—This is the standard of high quality; can be recommended without hesitation. Remarkable tender and fine flavored.

GIANT ARGENTEUIL—This is one of the earliest, one of the heaviest producers and one of the largest in stalk. Makes an excellent appearance and has exceptionally good market value.

Rhubarb

FOR family or market. Earliest available material in the Spring for pies and sauce. Its health-giving qualities make it very beneficial as a spring tonic. Should be in every home garden.

PRICES 2-YEAR STRONG ROOTS

Each, 20c; per 10, \$1.85; per 25, \$3.50; per 100, \$12.00; per 1000, \$100.00.

MYATT'S LINNAEUS—Early, tender and very large. Known as the sweetest pie plant.

VICTORIA—Remarkably productive variety, stock strong, thrifty and tender.

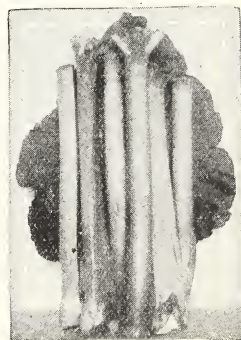

Horseradish

Will stand a great deal of hardship and exist in same soil year after year.

Price, per 10, 85c; per 25, \$2.00; per 50, \$3.25; per 100, \$5.00.

You know from the appearance of so many of your friends' homes that Nursery Stock pays big dividends in added attractiveness. Make your home a Bower of Beauty from the catalog, *right now*.

MYATT'S LINNAEUS

GRAPES

THE grape is another plant whose future, from a money making standpoint, cannot be fully estimated. The increase in the domestic production of beverages from the grape juice has already created a demand far in excess of the supply. Therefore, for commercial reasons alone, grape vines are a very lucrative investment. Besides, there is scarcely a yard so small in the city or country that from one to a dozen grape vines cannot be grown. They will grow in almost any unused corner of your property, can be trained over arbors, and they do admirably well along a wall to cover unsightly places or along garden fences, furnishing an abundance of the healthiest fruit. A crop of grapes is just as reliable as a corn crop and as staple on the market as wheat. When a vineyard is once established it will be productive for a life time with ordinary care, and the income from it can be counted on with as much certainty as the changing of seasons. A few dollars invested will "grow into money" without any further expenditure.

DISCOUNT—10% off on orders received with cash before March 1st; 8% before April 1st; 5 % after April 1st.

NEW CACO GRAPE

AGAWAM—Red in color; skin thick and berries large. Ripens early and is very vigorous. Late September.

BRIGHTON—This is an almost seedless variety of good quality; clusters are exceptionally large and almost seedless; vines are hardy. Middle of September.

CAMPBELL'S EARLY—One of the best of the early varieties; a comparatively new grape; especially successful for market purposes; flavor rich and sweet; clusters are large and handsome, black with light purple bloom; vine strong and vigorous grower.

CATAWBA—A good, long-lived market variety; much in demand for wine and champagne; large berries, copper-red and purplish. Requires a long season. Excellent keeper. Late September.

CONCORD—Leading commercial grape. It can be produced cheaper than any other grape on the market, owing to its adaptability to any soil and its high degree of fruitfulness. Exceptionally hardy and healthy. Grape juice is made almost entirely of Concords. Bunches, large and compact, berries large, glossy black with a rich bloom; good quality. Very reliable and profitable. Requires long season. See color plate.

Price: 30c each; \$2.50 per 10; \$12.50 per 100.

DELAWARE—Small bunches and small berries; juicy and sweet, a highly satisfactory table grape; skin is thin. Vine grows freely and is perfectly hardy.

McPIKE—Mammoth black; fine flavor and bears early, about the time the Worden bears.

MOORE'S DIAMOND—Leading early white grape with yellowish tinge; bunches large, very few seeds; juicy and free from pulp. Vine vigorous in growth, bears early September.

MOORE'S EARLY—A large, purplish-black berry; sweet and of good quality, ripening about ten days earlier than Concord. Vine vigorous and hardy.

Grapes—Continued

NIAGARA—A leader among the white varieties; a highly profitable market grape; both the berry and bunch are large, greenish-white tinted with pale yellow when ripe. Skin is thin, but tough; plant is hardy and a good yielder. Ripens with Concord.

POCKLINGTON—Light golden yellow, largest and most showy white. Grape vine hardy, healthy and productive. Ripens in September.

SALEM—Coppery red berries, large; flesh juicy and of fine quality. Very productive. This grape also ripens in September.

THE NEW CACO—Red; has a most delicious flavor and is of the highest quality. Cross between Concord and Catawba. The vines are very strong, vigorous growers, hardy, healthy and prolific. It has the most beautiful appearance of hardy grapes. It ripens early. 80c each; 10 for \$7.00.

WORDEN—Bunches large and almost black when fully ripe; berries large and thin skinned; juicy and highly flavored; about ten days ahead of Concord.

OFFER No. 230—GARDEN COLLECTION FOR \$7.50

Plant this group and have continuous fruit.

Currants

CURRENTS are always in good demand and are especially desirable for jellies, jams and preserves. They are easily grown and do not suffer injury from Winter.

Commercially currants are very profitable. An acre yields from 200 to 250 bushels and always bring a handsome price.

PRICES OF CURRANT BUSHES, ALL VARIETIES, EXCEPT PERFECTION

	Each	Per 10	Per 100
2 yr. No. 1	\$.25	\$2.25	\$18.00

CHERRY—This is a standard variety of red currant; of good quality and medium season. Fruit is very large and has a good market value.

DIPLOMA—Very productive and hardy red currant.

Clusters and berries are very large, fruit sweet and usually juicy. Bushes strong and vigorous.

FAY'S PROLIFIC—This ranks among the most popular of the red currants. As its name indicates, it is very productive and hardy. The fruit itself is of excellent quality. Fruit is easy to pick.

NORTH STAR—A red currant, very vigorous grower. Mild in flavor.

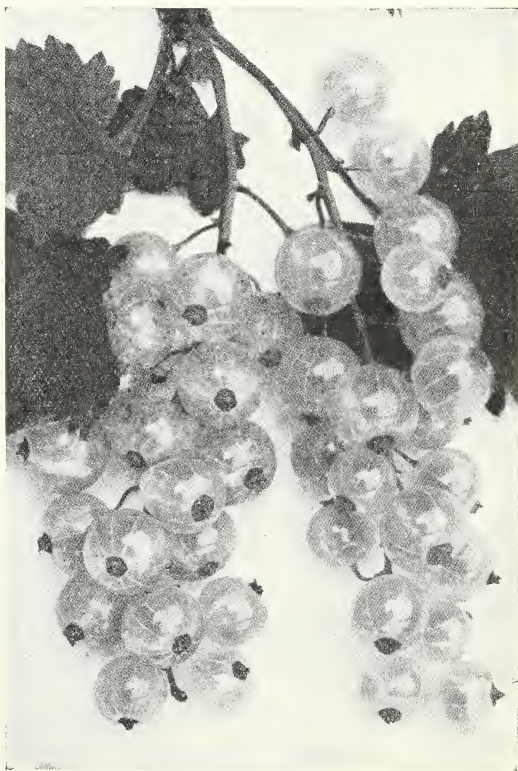

PERFECTION—In color it is a beautiful bright red, a size larger than the Fay. Clusters average longer and the size of berries is maintained to the end of the bunch. It is one of the most productive currants we have ever known; quality is superior to anything in the market. Price of the Perfection is as follows: Each, 40c; per 10, \$3.50; per 100, \$30.00.

RED CROSS—This is a strong growing, medium season variety; clusters are long and of medium size; berries are large in size. Probably the sweetest of all varieties.

RED DUTCH—An old time currant and widely known for its good quality.

WHITE GRAPE—Medium season variety. Very best quality of the white variety, immensely productive and commercially successful.

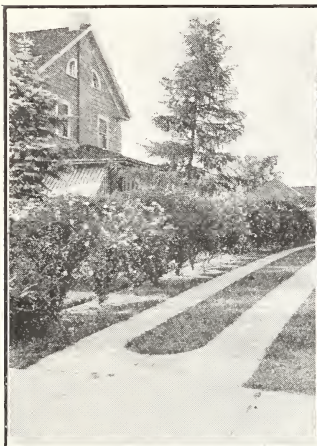

WILDER—It is one of the strongest growers and very productive. Bright, attractive red color and hangs on bushes longer than any other variety.

WHITE GRAPE CURRANT

Currants can be shipped to the following states only: Conn., Illinois, Indiana, Mass., Mich., New Jersey, New York, Ohio and Pennsylvania.

BEAUTY AROUND THE HOME

Here are a few attractive planting suggestions for your home. With an ordinary amount of care, you too can have the same harmonious and colorful effect.

A WORD ABOUT FOUNDATION PLANTINGS

These plantings if properly arranged about the foundation of a home, hide the sharp outlines of the dwelling and form a very pleasing effect. Plant the taller varieties in the background, with the low-growing or dwarf varieties in front, and the effect will add beauty and value to your home.

We have many suggestions on beautifying your home

OFFER No. 5—PORCH FOUNDATION EVERGREENS

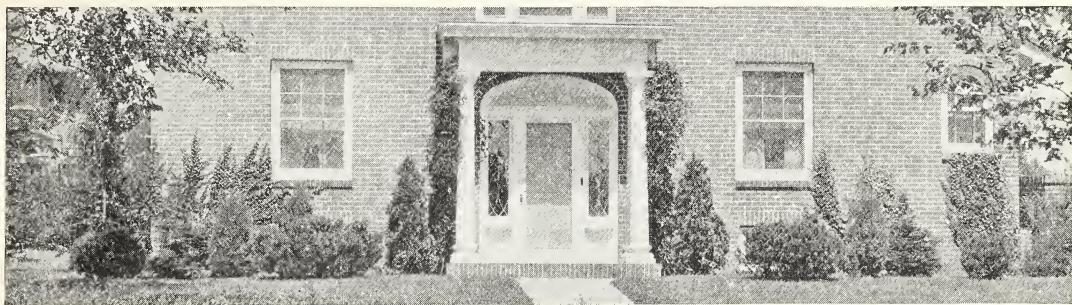

2 Juniper Virginiana Glauca 2 Col. Blue Spruce 1 Hovey's Golden Arbor Vitae 1 Irish Juniper
2 Arbor Vitae Pyramidal 1 Black Hills Spruce 1 Retinospora Plumosa Aurea

\$40.00

Evergreens

THE planting of the larger evergreens for windbreaks and the smaller varieties for the foundation and ornamental uses has become exceedingly popular. Planted about the foundation of a home or public building, they hide the sharp outlines of the building and form a pleasing background for shrubs and perennials. Their cool shade is delightful in summer and their permanent shades of blue, silver and green, give life and cheerfulness to their surroundings in winter, when all other plant life is dead or dormant. Besides the medicinal properties of the conifers, they give forth a pleasant, stimulating, piney odor the year round, bringing the wonderful air of the great North woods right to your very door. Annual or perennial flowers planted between the evergreens gives them color in summer. All our evergreens have an abundance of small root fibers and have all been transplanted in the nursery before shipping and each evergreen is balled and burlapped before it leaves our place, thus assuring the customer of the most successful transplanting. Evergreens are usually planted 3 ft. each way.

All Evergreens are balled and burlapped.

You can duplicate this planting with 12 to 14 well selected Evergreens at a cost of \$3 to \$5 each. Use Pyramidal Arbor Vitae, Balsam Fir, Irish Juniper, Colorado Blue or Black Hills Spruce for the taller growing varieties and the Mugho Pine, Globosa Arbor Vitae and the Retinospora for the Dwarfs or low growing kinds. Think of what this would mean to your home.

ARBOR VITAE PYRAMIDAL—An extremely compact grower, narrow pyramidal-shaped evergreen with spray-like foliage. Deep rich green color. The growth is regular, close and compact. Requires little space, which makes it desirable for planting near the house in foundation plantings. Plant as a single specimen or in groups of two or three at either side of the entrance or at the corners of a lawn or building. It breaks the sharp outline and the ornamental effect is most pleasing. Reaches a height of 10 or 15 feet but by annual pruning can be kept at any desired height. Price: 12 to 18 inch, \$2.75 each; 18 to 24 inch, \$3.25 each.

ARBOR VITAE, AMERICAN—A well known variety of great value; it forms an upright, conical tree of medium size, stands trimming well and is considered a fine evergreen for screens, being hardy and more easily transplanted; very dense and impervious to the sight. This evergreen will adapt itself to all locations, but does especially well in moist soil. Prices: 12-18 inch, \$1.00 each, \$9.00 per 10; 18-24 inch, \$1.50 each, \$12.50 per 10; 2-3 feet, \$2.00 each, \$17.50 per 10.

ARBOR VITAE SIBERIAN—Dwarf-conical shaped with a broad globe shaped base tapering to a rather blunt point. The foliage is dark green, heavy and deeply crested. Hardy in any climate and will retain its dark green color in any weather. Very desirable for foundation planting as a specimen tree on lawn or for screens and hedges. Price: 18-24 inch, \$3.50 each.

ARBOR VITAE HOVEY'S GOLDEN—Semi-dwarf variety, with very attractive bright green foliage. This evergreen is not ball-shaped, but a small blunt pyramid. Attractive in door-step groups or as a single specimen. Price: 18-24 inch, \$3.50 each.

ARBOR VITAE GLOBOSA—Without doubt the best globe-shaped evergreen. Maintains its natural globe-shape without trimming. Especially fine for low borders, for foundation groups, or for tubs.

Beautiful green, feathery foliage. Retains its color all winter. Prices: 18-24 inch, \$3.50 each.

ARBOR VITAE TOM THUMB—Very dwarf and compact. Very popular for border or foundation planting. Price: 12-18 inch, \$3.50 each.

BALSAM FIR—A broad, regular pyramidal-shaped tree. Foliage is sweet scented and dark green above, silvery beneath. Retains its color throughout the severest winters. Rapid grower and very desirable for specimen on lawn, or for foundation planting. Prices: 18-24 inch, \$3.50 each; 2-3 feet, \$4.50 each.

DOUGLAS FIR—Another well known sort. Upright, symmetrical branched tree, branches spreading 12-18 feet in old trees. Will grow 60 feet and more in height. Price: 18-24 inch, \$3.50 each.

HEMLOCK—Good for a lawn tree, also makes a desirable and handsome hedge. Will stand much pruning. Has beautiful, drooping branches and delicate dark foliage. Very hardy, and endures well in a shady place. Price: 18-24 inch, \$3.50 each.

IRISH JUNIPER—A very pretty little tree or shrub, forming a neat tapering column of deep green foliage. Very hardy and desirable for planting on lawns, foundation groups, or in cemeteries where larger evergreens are not admissible. Prices: 12-18 inch, \$1.25 each; 18-24 inch, \$3.50 each; 2-3 ft., \$6.00 each.

JUNIPER, SAVIN—A low, much-branched very attractive evergreen. Its berries are blackish purple in color, some smooth, some shiny, some glaucous or powdery, about the size of small currants. Does well in smoky atmospheres. Very hardy. Price: 18-24 inch, \$5.00 each.

JUNIPER VIRGINIANA GLAUCA, Blue Cedar—Aristocrat of the smaller evergreens. A very vigorous growing form, conical in shape, branches upright and dark green foliage. Price: 18-24 inch, \$6.00 each.

Evergreens—Continued

PINE, MUGHO—Dwarf globe-shaped evergreen, compact in growth, with dark green foliage, which is retained throughout the winter. Excellent for planting in front of taller evergreens in foundation plantings, borders, etc. Price: 12-18 inch, \$3.60 each; 18-24 inch, \$4.75 each.

PINE, AUSTRIAN—From Central Europe. Remarkably robust with long, stiff leaves and deep foliage. Hardy everywhere and valuable as windbreaks, screens, etc. Price: 18-24 inch, \$3.50 each.

PINE, WHITE—Very picturesque and especially adapted for large grounds, foliage is blue green. Rapid grower. Will thrive in any soil. Price: 2-3 foot specimen, \$3.00 each.

RETINOSPORA PISIFERA AUREA—Very exquisite evergreen, with golden feathery foliage. Horizontal branches. Desirable specimen or will group well. Price: 18-24 inch specimen, \$5.00 each.

RETINOSPORA PLUMOSA AUREA—An exquisite dense growing evergreen of conical form, golden, feathery foliage and exceedingly handsome. Very hardy. Thrives in any good soil. Desirable for grouping, or as a specimen or hedge. Price: 12-18 inch, \$3.00 each; 18-24 inch, \$4.00 each.

SPRUCE, COLORADO BLUE—A magnificent evergreen with an abundance of heavy foliage of a rich glistening blue. Its intense steel-blue foliage

makes it desirable for specimen planting on lawn and very striking in group planting. Like an Oak it will thrive anywhere. Prices: 12-18 inch, \$4.00 each, \$30.00 per 10; 18-24 inch, \$6.00 each, \$50.00 per 10; 2-3 feet, \$9.00 each, \$80.00 per 10.

SPRUCE, DOUGLAS—From Colorado; large, conical form; spreading, horizontal branches. Leaves bright green above, bluish green tinge beneath. Price: 2-3 ft., \$4.50 each.

SPRUCE, KOSTER'S BLUE—Similar to the Colorado Blue except that the foliage is a much brighter blue. Price: 10-12 in., \$7.00 each.

SPRUCE, NORWAY—A tall, graceful pyramidal-shaped tree with broad, drooping branches at the base. Foliage deep green, with light brown cones 5 to 7 inches long in the Fall. Planted universally for Christmas trees. Excellent for windbreaks on farms or as a screen or hedge. Groups well with other evergreens or can be planted singly. Prices: 12-18 inch, 85c each, \$7.50 per 10; 18-24 inch, \$1.25 each, \$10.00 per 10; 2-3 feet, \$1.75 each, \$15.00 per 10.

BLACK HILLS SPRUCE—Is symmetrical, compact and bushy in growth. The foliage shades from green to a bluish tint, and is remarkable for its bright fresh color. Extremely hardy. Price: 18-24 inch, \$4.50 each.

Ornamental Hedges

WHY hedges? Aside from the question of beauty, hedges are the practical fence. For protection to the lawn, wind-breaks and screens, they are permanent and increase in value, year after year. For lawns

bordering on busy streets or highways, it is the practical thing. It may be high or low, thick or narrow, according to what you plant, or it may be evergreen, deciduous, or flowering.

Barberry trimmed like insert makes a decorative foundation planting or untrimmed like illustration a pleasing hedge.

SPECIAL OFFER No. 270

Fifty-Foot Barberry Hedge, \$6.35—50 Japan Barberry (Thunbergii) 12-18 in.
(Regular Catalogue price \$7.50)

These twice transplanted, fine little Barberry hedge plants will make a charming hedge for a fifty-foot front if planted a foot apart. Some planters set them one and half feet apart, making a hedge half again as long. Carefully packed and delivered in first-class condition.

BARBERRY THUNBERGII (Japan Barberry)—

A dwarf grower of thick, compact habit, graceful drooping branches, stands pruning well. Its brilliant red fruit clings through most of the winter. Leaves light green changing to a beautiful copper red in the Fall. Also valuable for foundation planting, facing taller shrubbery or for planting singly on the lawn. Perfectly hardy. Prices: 18-24 inch, \$3.50 per 10, \$30.00 per 100; 2-3 ft., \$5.00 per 10, \$45.00 per 100.

HONEY LOCUST—A fast growing native with powerful spines and delicate foliage. Very useful as a defensive hedge plant. Prices: 18-24 inch, \$1.00 per 10, \$7.50 per 100, \$55.00 per 1000.

JAPAN QUINCE—Glossy, dark foliage with reddish tints. Large, deep, scarlet flowers in profusion in early Spring. Prices: 18-24 inch, \$4.00 per 10, \$35.00 per 100; 2-3 ft., \$6.00 per 10, \$50.00 per 100.

PRIVET, IBOTA—A beautiful Japanese shrub, spreading and tall growing, very hardy. Fragrant white flowers followed by blueblack berries. 18 to 24 inch, \$1.50 per 10; \$10.00 per 100. 2-3 ft., \$1.65 per 10, \$13.50 per 100.

PRIVET, AMOOR RIVER NORTH—Very similar to California Privet, but much hardier. Will stand the coldest winters. Prices: 18-24 inch, \$1.50 per 10, \$7.00 per 100; 2-3 ft., \$1.60 per 10, \$13.50 per 100.

PRIVET LODENSE (L. Nanum Compactum)—

This is a new, dwarf and distinct form of privet of extremely compact and low growing habit. The foliage is rich, dark green and of extreme hardiness. It is particularly useful for low hedges and borders, as it stands shearing very well. Prices: 10-15 inch, \$5.50 per 10, \$50.00 per 100; 15-18 inch, \$6.50 per 10, \$60.00 per 100.

PRIVET, CALIFORNIA—The best of all hardy hedge plants and is easily kept at any height desired. Has no thorns, does not sucker from the roots and is not objectionable in any way. A universal favorite. Prices: 18-24 inch, \$1.35 per 10, \$7.00 per 100; 2-3 ft., \$1.80 per 10, \$10.00 per 100.

Shade and Ornamental Trees

NO farm or city home, or estate, is complete without a proper setting of ornamental trees, and no factor in increasing the home value is more easily or cheaply supplied. Costing but a few dollars to start, they grow into money faster than any other investment on the premises, and the pleasure and inspiration derived are worth considerably more than their money value, although an environment of shade and ornamental growth will actually raise the commercial value of any home, at least \$1,000. This value increases as time passes and your ornamental trees grow. We have listed here only such kinds as possess distinctive decorative quality, and that are suitable for lawn, park and street planting. In planting, do not crowd roots, but allow them to spread freely.

AILANTHUS—(Tree of Heaven) A native of Japan. A rapid growing tree with feathery, tropical foliage. Will thrive in poor soil. Excellent for city planting. Price: 5-6 ft., \$1.25 each.

BIRCH, CUT-LEAVED WEEPING—This noble tree is not only the most popular of the weeping trees, but it is indeed a picture of delicacy and grace. Its tall, slender yet vigorous growth, graceful branches, silvery white bark and delicately cut foliage present a combination of attractive characteristics rarely met with in a single tree. Prices: 3-4 ft., \$2.00 each, \$17.50 per 10; 4-5 ft., \$2.50 each, \$20.00 per 10.

BIRCH, EUROPEAN WHITE—A fine tree of moderate size. Bark silvery white; spray-like branches. Price: 4-5 ft., \$1.25 each; \$10.00 per 10.

CARAGANA—(Siberian Pea Tree). A large shrub with bright green feathery foliage attaining a height of 10-12 ft. Flowers yellow produced in small clusters in late spring. Price: 2-3 ft., 40c each; 3-4 ft., 60c each.

CATALPA SPECIOSA—A highly desirable tropical appearing tree with large, fragrant, purple and white flowers. Flowers abundantly in June. The trunks are very straight and smooth and its wood has been found to be very valuable for fence posts, railroad ties, etc. One of the most desirable trees for either commercial purposes or for street or park planting. Prices: 5-6 ft., 60c each, \$5.00 per 10; 6-7 ft., 75c each, \$6.00 per 10.

CATALPA BUNGEI—(Umbrella Tree). Grafted on stems 4 to 7 ft. high it makes an umbrella shaped top without pruning; perfectly hardy and flourishes in almost all soils and climates. Leaves large, glossy, heart-shaped, deep green; always making a symmetrical head. A very unique tree. Very desirable for formal effects, or for lawn, park and cemetery planting. Attractive in pairs along driveway. Prices: 4-5 ft., \$1.50 each, \$12.50 per 10; 5-6 ft., \$1.75 each, \$15.00 per 10; 6-7 ft., \$2.00 each, \$17.50 per 10. (See color cut on inside cover.)

BECHTEL'S CRAB

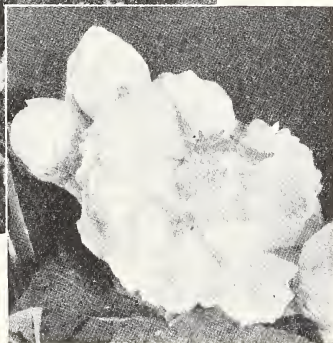

CRAB, BECHTEL'S FLOWERING—A medium size, ornamental tree of great beauty, covered in early spring with double pink fragrant flowers that look like roses at a distance. Price: 3-4 ft., \$1.50 each; \$12.50 per 10.

ELM, AMERICAN—A noble drooping, spreading tree of our native forests; a rapid grower and one of the finest trees for street and park. Prices: 6-8 ft., \$1.00 each, \$8.50 per 10; 8-10 ft., \$1.50 each, \$12.50 per 10; 10-12 ft., \$2.50 each, \$20.00 per 10; 12-14 ft., \$3.50 each, \$32.50 per 10.

ELM, CAMPERDOWN WEEPING—One of the most picturesque of the weeping trees. Usually grafted high, the top spreads outward and downward. Leaves are large, dark green and very dense. Very popular for the lawn. Price: \$3.00 each.

HORSE CHESTNUT—(White Flowering). A well known variety. Its magnificent spikes of white flowers make it very attractive. Fine for street planting. Price: 4-5 ft., \$2.00 each.

JUDAS TREE or Red Bud—This medium size tree with heart-shaped leaves of pure green, glossy surface, is very highly ornamental. Before the foliage appears it is covered with a profusion of delicate pink flowers from which it derives its name, Red Bud. Price: 4-5 ft., \$1.25 each.

Shade and Ornamental Trees—Continued

LABURNUM OR GOLDEN CHAIN—This is a native of Europe with smooth, shining foliage. It bears long, pendant racemes of golden flowers in June. Showy, beautiful. Price: 3-4 ft., \$1.50 each.

LINDEN AMERICAN or Basswood—A stately rapid growing tree with large showy leaves and fragrant flowers. Very desirable on account of its fine, luxuriant foliage. Valuable for its beautiful white wood. Prices: 5-6 ft., \$1.00 each; 6-8 ft., \$1.50 each.

LINDEN EUROPEAN—Pyramidal in form. Its abundant foliage forms a dense shade. Flowers fragrant. Valuable for street and lawn planting. Prices: 5-6 ft., \$1.00 each; 6-8 ft., \$1.50 each.

MAPLE, WIER'S CUT-LEAVED—A beautiful variety with delicately cut leaves and graceful, drooping branches. Vigorous grower. While it makes a large tree if undisturbed, it will bear any amount of pruning and may be easily adapted to small lawns. Prices: 4-6 ft., 75c each, \$7.00 per 10; 6-8 ft., \$1.00 each, \$9.00 per 10.

MOUNTAIN ASH—A favorite, erect growing lawn tree of medium size, producing white flowers early in the spring followed by clusters of bright red berries which remain on the tree through the winter months. Price: 6-8 ft., \$1.50 each.

MOUNTAIN ASH, Oak-leaved—A hardy tree of fine habit, height and breadth from 20 to 30 feet; foliage simple and deeply lobed. A very fine lawn tree. Price: 5-6 ft., \$1.50 each.

OAK, ENGLISH—A spreading long-lived tree, with dark green leaves. The Royal Oak of England. Well adapted for lawn and public grounds. Prices: 4-5 ft., \$1.50 each; 5-6 ft., \$2.00 each.

OAK, SCARLET—Valuable for its brilliant Fall coloring. Its showy leathery leaves turn to a bright scarlet in autumn. Rapid, strong grower. Perfectly hardy. Pyramidal in form. A good street tree. Price: 6-8 ft., \$2.50 each.

MULBERRY, DOWNING—The beauty of this as a street or lawn tree is quite enough to commend it, but in addition it

yields an abundant supply of its large, refreshing berries for about three months. Price: 5-6 ft., \$1.25 each, \$11.00 per 10.

MAPLE, ASH-LEAF or Box Elder—A fine, rapid growing variety with handsome light green foliage and spreading head; very hardy, desirable for street planting and succeeds in many places where other varieties do not thrive. Prices: 6-8 ft., 75c each, \$6.00 per 10; 8-10 ft., \$1.00 each, \$8.00 per 10; 10-12 ft., \$1.25 each, \$10.00 per 10.

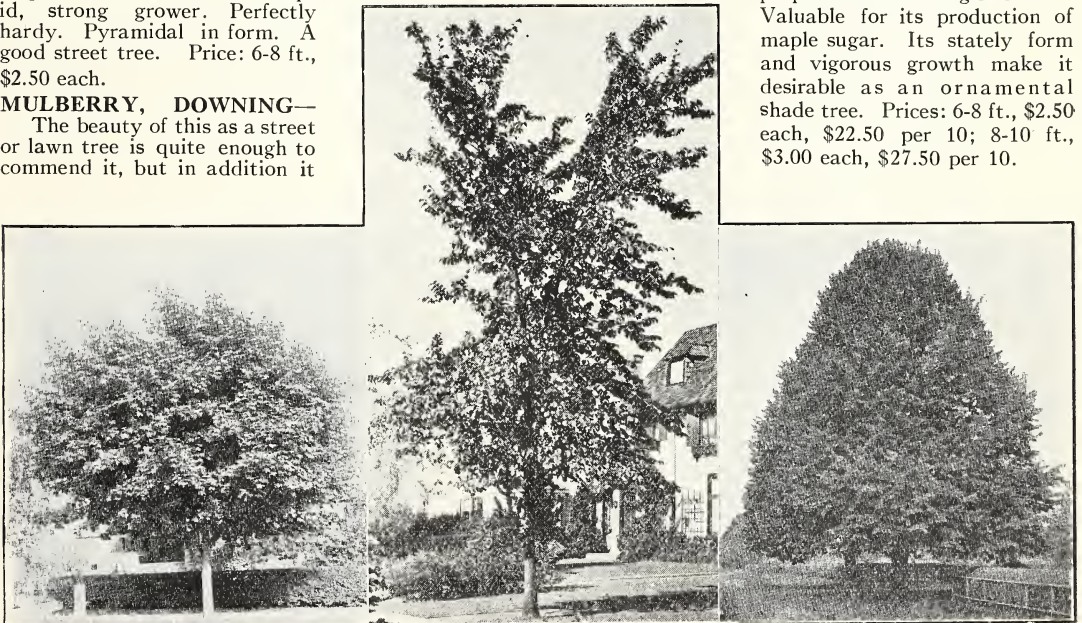

MAPLE, NORWAY—Most beautiful shade tree. Perfect in form; free from disease. Sturdy, compact and vigorous grower, forming a rounded head of stout branches of clean, broad, deep green foliage. Perfectly hardy. Excellent for street planting or for shade on lawn. Prices: 6-8 ft., \$2.00 each, \$17.50 per 10; 8-10 ft., \$2.50 each, \$22.50 per 10; 10-12 ft., \$3.00 each, \$27.50 per 10.

MAPLE, SILVER-LEAF—If a quick growing tree for immediate shade is desired, we recommend the Silver-Leaf Maple. Forms a large, spreading head; foliage bright green above, and silvery beneath. Excellent for street planting. Prices: 6-8 ft., 75c each, \$7.00 per 10, \$60.00 per 100; 8-10 ft., \$1.00 each, \$9.00 per 10, \$80.00 per 100; 10-12 ft., \$1.50 each, \$12.50 per 10, \$100.00 per 100.

MAPLE, SCARLET or RED—Another native tree, but of medium size. Red blossoms appear in the spring before the leaves. Foliage changes in the autumn to most gorgeous tints. Highly ornamental. Price: 6-8 ft., \$1.75 each.

MAPLE, SCHWEDLER'S—A valuable tree, recently introduced; young shoots and leaves of a purplish crimson color. Price: 6-8 ft. \$4.00 each.

MAPLE, SUGAR or ROCK—A magnificent well proportioned and long-lived tree. Valuable for its production of maple sugar. Its stately form and vigorous growth make it desirable as an ornamental shade tree. Prices: 6-8 ft., \$2.50 each, \$22.50 per 10; 8-10 ft., \$3.00 each, \$27.50 per 10.

NORWAY MAPLE

AMERICAN ELM

AMERICAN LINDEN

SUITABLE TREES FOR STREET PLANTING

Shade and Ornamental Trees—Continued

MULBERRY, RUSSIAN—A hardy, rapid growing tree. Foliage abundant; valuable for windbreak. Fruit black and medium size. Price: 5-6 ft., 90c each, \$7.50 per 10.

MULBERRY, TEA'S WEeping—The most graceful and hardy weeping tree in existence. Wholly unlike anything heretofore introduced. Forms perfect umbrella-shaped head with long, slender willowy branches, drooping to the ground. All who have seen it agree that in light, airy gracefulness, delicacy of form and motion, it is without a rival. One of the foremost among the weeping trees; has beautiful foliage and is wonderfully vigorous and healthy. Safe and easy to transplant. Admirably adapted for ornamenting large or small grounds and also for park and cemetery planting. Price: 2 year old heads, \$2.75 each; \$25.00 per 10. (See inside front cover for colored illustration.)

OAK, PIN—Foliage deep green, finely divided; assumes a drooping form when it acquires age. One of the most valuable; fine for streets. Price: 6-8 ft., \$2.50 each.

ORIENTAL PLANE—Very popular for street growing. A rapid, upright, clean grower and long lived; beautiful, dense foliage. It is not affected by the air of cities or by insects. The bark peels off the trunk and branches in autumn, leaving the whole tree of a creamy white color all through the winter. Price: 6-8 ft., \$2.00 each; \$17.50 per 10.

POPLAR, CAROLINA—A remarkably rapid, luxuriant grower. Very large leaves, very glossy, deep green. Will grow in any kind of soil. For a quick-growing shade tree there is none that equals the Carolina Poplar. Also useful for planting as a screen to hide unsightly buildings or as a windbreak for orchard or garden plot. Prices: 6-8 ft., 50c each, \$4.00 per 10, \$40.00 per 100; 8-10 ft., 75c each, \$6.00 per 10, \$50.00 per 100; 10-12 ft., 85c each, \$7.50 per 10, \$60.00 per 100.

WILLOW, BABYLONICA—Our common, well known weeping variety, with branches of olive green color, forms a large round-headed, graceful tree; requires plenty of room and where space can be spared is very desirable. Attractive near water. Price: 6-8 ft., \$1.00 each; \$8.50 per 10.

PURPLE LEAVED PLUM (Prunus Pissardi)—

The smallest purple leaved small shrub of recent introduction. The young branches are a very dark purple. Leaves when young are a lustrous crimson, changing to dark purple, and retain this beautiful tint until they drop late in the autumn; no other purple-leaved tree or shrub retains its color like this. Flowers small, white, single, covering the tree. Price: 4-6 ft., 80c each.

PRUNUS TRILOBA (Double-flowered plum)—A charming shrub of vigorous growth. Very early in Spring, before its leaves appear, the whole tree is decked in a fleecy cloud of very double, light-pink blossoms. Its effect on a still, leafless landscape is very bright. Blooms in May. Price: 3-4 ft., \$1.00 each; \$8.50 per 10.

SALISBURIA (Maiden Hair Tree). From Japan.

One of the most beautiful of lawn trees. Of medium size, rapid growth and rich, glossy fern-like foliage. Rare and elegant. Price: 5-6 ft., \$2.00 each.

THORN, PAUL'S DOUBLE SCARLET—Flowers bright carmine red. Superior to any of its color. Very fine for small grounds. Fruit very ornamental. Will thrive in any soil. Price: 3-4 ft., \$2.00 each.

THORN, DOUBLE WHITE—Has small, white flowers. A highly ornamental variety on account of both foliage and flowers. Makes a very striking contrast when planted with double scarlet. Strong trees. Price: 3-4 ft., \$2.00 each.

TULIP TREE (Whitewood)—A grand native tree of tall pyramidal habit, with broad, glossy, fiddle-shaped leaves and beautiful tulip-like flowers. Price: 5-6 ft., \$1.50 each.

LOMBARDY POPLAR—Well known for its erect, rapid growth and spike-like form; used for screens and formal plantings. Prices: 6-8 ft., 85c each, \$7.00 per 10, \$55.00 per 100; 8-10 ft., \$1.00 each, \$8.00 per 10, \$65.00 per 100.

WILLOW, GOLDEN—For winter effect the Golden Willow is unsurpassed. Its yellow branches very conspicuous; light green leaves. Price: 6-8 ft., 85c each; \$7.50 per 10.

WILLOW, KILMARNOCK—A distinct variety, having reddish shoots and large, glossy foliage. Grafted at a proper height, about five feet from the ground, it makes a very desirable small lawn tree, having a perfect umbrella-shaped head with the branches drooping gracefully to the ground. Price: \$3.00 each.

Nut Trees

Plant your waste land to nut trees. Will thrive where other stock fails. The wood is exceedingly valuable and the nuts are always in demand.

ENGLISH WALNUT—One of the largest, most delicious meaty nuts, always in demand at a good price. Can generally be grown in any climate where peaches are grown. Price: 3-4 ft., \$1.50 each.

BLACK WALNUT—The common well known variety, the wood of which is most beautiful and valuable. Very productive in nuts. Price: 6-8 ft., \$1.50 each.

BUTTERNUT—A fine native, rapid growing, lofty-spreading tree. Unique tropical appearance. Valuable for its beautiful wood and large crops of nutritious nuts, prized for their home use and big demand by confectioners and bakers. Bears early. Price: 5-6 ft., \$1.50 each.

JAPAN WALNUT—Perfectly hardy; a rapid grower, handsome leaves, bears young and abundantly. One of the finest ornamental trees. Nuts produced in clusters, the shell a little thicker than the English Walnut. Worthy of extensive planting. Prices: 3-4 ft., \$1.00 each; \$8.50 per 10.

AMERICAN SWEET CHESTNUT—A native of the Atlantic Coast States but is widely planted in the North Western States with success. Valuable as a nut producing tree, timber and ornamental purposes. The most popular variety of chestnut. Price: 3-4 ft., \$1.00 each.

Ornamental Vines

VINES always add grace and beauty. Some are prized for the color and fragrance of their flowers while others are valuable for covering brick or stone walls. Vines rank as the most beautiful plants for training on fences, on old trees, over porches and windows. In Spring and Summer, their foliage is a mat of green leaves, and turns to rich yellow, gold and bronze in Autumn.

WISTARIA (Purple)

BITTERSWEET—A rapid climbing plant, with orange-yellow flowers and crimson seeds. Glossy leaves. The cut branches much used for house decoration in the Winter. Price: 75c each, \$7.00 per 10.

CINNAMON VINE—A strong, hardy climber from China. 10 to 30 feet. Leaves heart-shaped; flowers small, white, cinnamon-scented. Very fragrant. Impervious to insects and blight. One of the best. Price: 20c each, 4 for 65c.

CLEMATIS (Paniculata)—This is one of the most attractive and effective of the hardy flowering climbing vines. Especially adaptable for covering trellises, fences, walls and pillars. Price 55c each, \$5.00 per 10.

C. DUCHESS OF EDINBURGH—One of the double, pure white varieties; deliciously scented. Price 85c each, \$8.00 per 10.

C. JACKMANI—Covered from July to October with a dense foliage of purple flowers. A strong grower and popular variety. Price 85c each, \$8.00 per 10.

C. MADAME EDW. ANDRE—Flowers bright, velvety red. Large and continuous bloomer. Price 85c each, \$8.00 per 10.

BOSTON IVY (Ampelopsis Veitchii or Japan Ivy)—One of the best climbers for covering walls; clings tenaciously without artificial fastening. The leaves overlap giving the appearance of a solid sheet of green, changing in the autumn to beautiful tints of crimson and yellow. Price: 75c each, \$7.00 per 10.

ENGLISH IVY—Used extensively for covering brick and stone walls. Price: 75c each.

HALL'S JAPAN HONEYSUCKLE—Vigorous, almost evergreen climber with white flowers changing to yellow. Price: 60c each, \$5.00 per 10.

MATRIMONY VINE—A vigorous climber, branching freely and covered with brightly purple, star-shaped flowers, succeeded by brilliant scarlet berries. Fine for porches. Price: 2 year old, 50c each, \$4.00 per 10.

TRUMPET VINE (Bignonia)—Popular variety with showy orange-scarlet flowers and evergreen leaves. Recommended for arbors, rocks, brightening of hedges or over old trees or logs. A strong, high grower. Price: 60c each, \$5.50 per 10.

WISTARIA WHITE—An attractive and strong grower with a large number of hanging pea-shaped, white flowers. Price: 75c each, \$7.00 per 10.

WISTARIA PURPLE—A beautiful climber of very rapid growth, producing long, pendulous clusters of pale, blue flowers in June, also in Fall; is perfectly hardy and one of the most superb climbing vines ever introduced. Price: 75c each, \$7.00 per 10.

DUTCHMAN'S PIPE (Aristolochia)—A native species of climbing habit and rapid growth, with magnificent light green heart shaped leaves, 10 to 12 inches in diameter and curious pipe-shaped, yellowish-brown flowers. Price: 2 year old, \$1.00 each, \$9.00 per 10.

AMERICAN IVY (Virginia Creeper)—A very desirable vine for covering walls, verandas, and tree trunks. Leaves are beautiful in Summer, turning a rich crimson in Autumn. A fast grower. Price: 50c each, \$4.50 per 10.

CLEMATIS PANICULATA

Hardy Flowering Shrubs

A FOUNDATION PLANTING OF SPIREA VAN HOUTTEI AND DEUTZIA GRACILIS

This planting can be duplicated, consisting of 15 Spirea Van Houttei and 15 Deutzia Gracilis, flowering from May until early fall, for \$8.50. A wonderfully attractive planting at a low cost.

ALMOND, Amygdalus—The flowers are very showy, produced in great abundance and useful for their earliness. Fine plants to use in grouping or for lawns. Prices: 2-3 ft., 75c each, \$6.00 per 10; 3-4 ft., \$1.00 each, \$8.50 per 10.

Double Pink—Small, double pink flowers borne in abundance in May.

Double White—Small, double white flowers borne in abundance in May.

ALTHEA or Rose of Sharon (Hibiscus)—The Altheas are free growers and not particular as to soil. Large, bell-shaped flowers of striking colors in August and September, when but few other sorts are in blossom. They attain a height of from six to ten feet.

Double Purple	Double Pink
Double Red	Double White

Very large and double, with reddish-purple center. Prices: 18-24 inch, 45c each, \$3.50 per 10; 2-3 ft., 65c each, \$5.00 per 10.

TREE ALTHEAS—Flowers are the same as bush form. Grown on a single stem instead of being branched from ground as bush form. Price: 4-5 ft., \$1.00 each.

BUDDLEIA, Everblooming Butterfly Bush—This shrub, from a young plant set out either in the Spring or Fall, will mature to full size the first year; often attains a height of four feet. It produces long, graceful stems, which terminate in tapering panicles of beautiful lilac-colored flowers that are of miniature size and borne by the hundreds on a flower head which is frequently 10 inches long. A single plant the first season will throw out as many as 50 flower spikes, which increase greatly in number during the succeeding years. The foliage and blooms are exceedingly fragrant and attract butterflies. Very desirable as an individual specimen in the lawn and garden or placed promiscuously in the shrubby border. Price: 2-3 ft., 50c each, \$4.00 per 10.

CLETHRA ALNIFOLIA, Sweet Pepper Bush—A pretty little shrub that blooms freely for several weeks in Summer; very fragrant, white flowers. Price: 2-3 ft., 75c each.

CORNUS ELEGANTISSIMA (Variegated)—One of the finest variegated shrubs; of rapid growth, the leaves are broadly margined with white, while some are entirely white. Price: 2-3 ft., 75c each, \$6.00 per 10.

CORNUS FLORIDA (White Flowering Dogwood)—Large, white flowers produced in Spring before the leaves appear. Foliage grayish green, glossy and handsome; in the Fall turning to a deep scarlet; one of the most beautiful colored trees at that season. Price: 3-4 ft., \$1.00 each.

CORNUS RED BRANCHED—Very conspicuous and ornamental, especially in Winter when the bark turns to a blood-red. Price: 2-3 ft., 40c each, \$4.00 per 10.

DEUTZIA CRENATA—A hardy, vigorous shrub, free from disease. Covered with showy double white flowers, tinged with rose, produced in racemes, 4 to 5 inches long. Blooms in June. Price: 2-3 ft., 50c each, \$4.00 per 10.

DEUTZIA GRACILLIS (Dwarf)—Slender, branched variety, dwarf habit and very early flowering. Flowers pure white. Prices: 12-18 in., 50c each, \$4.00 per 10; 18-24 in., 65c each, \$5.00 per 10.

DEUTZIA LEMOINE—Flowers pure white, borne in profusion on stout branches which are of upright growth. Habit dwarf and free-flowering. Prices: 12-18 in., 50c each, \$3.50 per 10; 18-24 in., 65c each, \$5.00 per 10; 2-3 ft., 75c each, \$6.50 per 10.

DEUTZIA, PRIDE OF ROCHESTER—Produces large, double white flowers in June. The best of the Deutzias; very vigorous growth; profuse bloomer. Prices: 18-24 in., 35c each, \$3.00 per 10; 2-3 ft., 50c each, \$4.00 per 10.

ELDER, GOLDEN (Sambucus)—Leaves bright green when they first appear, but if planted where they will get the sun, they change to a golden green. Best effect is had when planted with other shrubs, when the foliage will appear more conspicuous. Price: 2-3 ft., 65c each, \$5.00 per 10.

ELEAGNUS LONGIPES (Japan Oleaster)—In July the plant is covered with red berries. The bush is highly ornamental, the leaves remaining fresh till late Autumn. Price: 18-24 in., 75c each.

Hardy Flowering Shrubs—Continued

EUONYMOUS (American Burning Bush)—Very conspicuous in the autumn and winter when loaded with scarlet seedpods, from which the orange-colored berries hang on slender threads. Price: 3-4 ft., \$1.00 each.

FORSYTHIA VIRIDISSIMA—These splendid old shrubs, growing 8 to 10 feet tall, eventually light up the garden with glinting masses of yellow very early in spring before the leaves appear. Their bright, golden flowers, often appearing before the snow is gone, vie with the Crocus as harbingers of Spring. Price: 2-3 ft., 65c each, \$5.50 per 10.

FORSYTHIA FORTUNEI—Growth upright; foliage deep green; flowers bright yellow, appearing before the leaves. Very showy.

FORSYTHIA SUSPENSA—Very long, curving branches, superbly adapted to covering arches and trellises.

FRINGE PURPLE (Rhus Cotinus)—The beautiful Mist or Smoke Tree. One of our handsomest shrubs, growing in tree-like proportions. Its loose, graceful, drooping panicles of purple flowers are quite fragrant and borne in fringing clusters above very large, dark green leaves of thick, feathery texture and remain on all Summer. In Autumn the foliage turns to shades of reddish-brown. Blooms in June. Price: 2-3 ft., \$2.00 each.

FRINGE WHITE (Chionanthus)—A very desirable tall growing shrub; dark green, glossy leaves turning yellow in Autumn. Flowers pure white, in loose, drooping panicles, appear in May and June followed by small, plum-like berries of bluish color. Price: 2-3 ft., \$2.00 each.

HONEYSUCKLE FRAGRANTISSIMA (Upright)—Foliage bright green, almost an Evergreen. A large, spreading shrub with sweet, creamy white flowers, which bloom all summer. Price: 2-3 ft., 50c each.

HONEYSUCKLE RED TARTARIAN (Upright Lonicera Tartarica)—The best known of all the Bush Honeysuckles. Grows to a height of 8 to 10 feet, with upright, somewhat spreading branches and bright green foliage. The flowers are borne freely in May and June, are of bright pink color, followed by showy red

HYDRANGEA ARBORESCENS

berries, which ripen in mid-summer, and cling to the bush for several weeks. Price: 2-3 ft., 65c each, \$5.00 per 10.

HONEYSUCKLE WHITE TARTARIAN (Upright)—About the same as the above except that the flowers are white. Price: 2-3 ft., 65c each, \$5.00 per 10.

HYDRANGEA ARBORESCENS, Hills of Snow or Everblooming—Becomes a good-sized shrub to which the name Hills of Snow may well be applied—a profusion of large, snow-white flowers turning green instead of bronze as do other hydrangeas. Easily grown in ordinary garden soil and thrives in partial shade, but does best in full sun. It blooms from June till September. Strong, field-grown plants. Prices: 18-24 in., 60c each, \$5.00 per 10; 2-3 ft., 70c each, \$6.00 per 10.

HYDRANGEA PANICULATA GRANDIFLORA—A good variety to follow Hills of Snow, blooming profusely in August and September when few other shrubs are in bloom. It produces the largest flower heads of any of the hardy shrubs. Allowed to grow naturally, it assumes stately proportions, reaching a height of seven feet, and during the hot months is covered with its great pyramidal panicles, white on opening, assuming rose and bronze tints on the sunny side and drooping gracefully of their own weight. Valuable for winter decoration if flowers are allowed to dry on bush. Prices: 18-24 in., 75c each, \$6.00 per 10; 2-3 ft., 90c each, \$8.00 per 10.

HYDRANGEA PANICULATA in Tree Form—They are very effective for the lawn or park, or planted along the sidewalks or driveways, about 10 feet apart; they make a most beautiful sight when in full bloom. By planting one or more of these beautiful trees you can show to your neighbors and friends something nice and not commonly seen. Prices: 2-3 ft., \$1.00 each, \$7.50 per 10; 3-4 ft., \$1.35 each, \$10.00 per 10; 4-5 ft., \$1.75 each, \$15.00 per 10.

HONEYSUCKLE TARTARIAN

Hardy Flowering Shrubs—Continued

KERRIA JAPONICA (Japan Corchorus)—A handsome, green-leaved shrub, growing 4 to 5 feet. Graceful, slender, drooping branches, painted with a wealth of rich, dark yellow flowers in June, and to some extent, all Summer. Price: 2-3 ft., 75c each, \$6.00 per 10.

LILAC ALBA Common White—Prices: 2-3 ft., 70c each, \$6.00 per 10; 3-4 ft., \$1.00 each, \$8.00 per 10.

LILAC White Persian—White shaded with purple. A superb variety. Price: 3-4 ft., \$1.50 each.

LILAC CHARLES X—Deep, purple. Price: 3-4 ft., \$1.50 each.

LILAC FRAU BERTHA DAMMANN—Large and pure white. Price: 3-4 ft., \$1.50 each.

LILAC (Josikaea-Hungarian)—Blossoms late in June, with large panicles of lilac purple flowers. Price: 2-3 ft., \$1.50 each.

LILAC LUDWIG SPAETH—Deep, purplish-red flowers in dense, large panicles. Best of its color. Flowers in May. Price: 3-4 ft., \$1.50 each.

LILAC PERSICA (Persian)—Small foliage and bright, purple flowers. May. Price: 3-4 ft., \$1.50 each.

LILAC PRESIDENT GREVY—Exceptional, large, dense trusses of double, deep blue flowers. One of the finest new double sorts. Blossoms in May. Price: 3-4 ft., \$1.50 each.

LILAC VULGARIS (Common)—Bluish-purple flowers. May. A standard variety. Prices: 2-3 ft., 70c each, \$6.00 per 10; 3-4 ft., \$1.00 each, \$8.00 per 10.

LILAC VILLOSA—Dwarf grower; broad-leaved; pinkish lilac-flowers in long, loose panicles. Resembles tree form. Blossoms in May. Price: 3-4 ft., \$1.50 each.

EXCHORDA GRANDIFLORA (Pearl Bush)—One of the most distinctly ornamental shrubs in cultivation, a leader in its season. It grows vigorously to a height of 6 to 10 feet, and can be trimmed to any desirable shape. Stands our severe winters well. Has never failed to bloom yet. The early buds look like pearls strung on slender threads; May opening them up to long, gleaming sprays of pure white. One of the best. Price: 18-24 in., 75c each, \$6.00 per 10.

QUINCE JAPONICA (Japonica)—Very ornamental in early spring, as its bright, scarlet flowers completely cover the branches before the leaves are formed. The fruits which follow later are quince-shaped and quite fragrant. Has stout branches with fine thorns. Makes a good defensive hedge. Blossoms in early May. Price: 2-3 ft., 65c each, \$5.50 per 10.

SYMPLOCOS PANICULATA (Chinese Turquoise Berry)—A charming and unique shrub. White flowers in June followed by beautiful robin's egg or sky-blue berries. A strong grower, reaching a height of 5 ft. Add one or more to your collection. Price: 2-3 ft., \$2.00 each.

VIBURNUM PLICATUM (Japan Snowball)—A rare and exceedingly beautiful species of Japan; flowers in large, globular heads; pure white, hanging long on the bush, with very beautiful foliage. Blossoms in May and June. Prices: 18-24 in., 80c each; 2-3 ft., \$1.00 each.

VIBURNUM OPULUS (Cranberry, High Bush)—A very decorative shrub, with white flowers in May followed by beautiful, showy clusters of scarlet fruits. Prices: 18-24 in., 60c each; 2-3 ft., 85c each.

TREE FORM SNOWBALL—Have large, well-developed tops. Blossoms May and June. Price: 4-5 ft., \$2.00 each.

VIBURNUM OPULUS STERILIS (Common Snowball)—Grows 6 to 8 feet high, the old-fashioned Snowball; its large, globular clusters of pure white flowers are produced in May and June. Prices: 18-24 in., 50c each; 2-3 feet, 75c each.

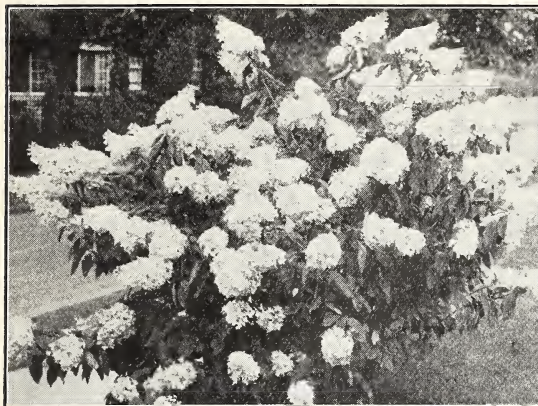

SNOWBERRY RACEMOSUS (Symphoricarpus)—Small, rose-colored flowers in June and July, followed by large clustered, milk-white fruits, which remain far into winter. The combination of pink flowers and white berries on the same twig is charming. July and August. Prices: 18-24 in., 50c each, \$4.00 per 10; 2-3 ft., 60c each, \$5.00 per 10.

VULGARIS (Indian Currant or Coral Berry)—A low growing, graceful shrub. Its fruits are red, and the small red berries cluster in thick ropes along the weighted-down stems. August. Prices: 18-24 in., 45c each; 2-3 ft., 60c each.

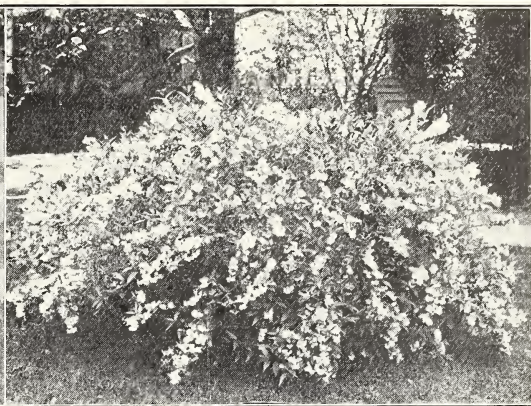

For a side foundation planting, Hydrangea P.G. and Barberry Thunbergii, trimmed, is always pleasing. A similar group of 10 Hydrangea P. G. and 15 Barberry Thunbergii. Our special price \$10.00.

SPIREA

Few shrubs lend themselves to every situation or condition as well as Spireas; showy, free flowering shrubs of easiest culture and covering a considerable blooming period from Spring to Summer. They are valuable for garden, lawn and landscape planting, being graceful, compact and hardy, preferring sunny situations.

SPIREA ANTHONY WATERER—A dwarf, compact-growing shrub. Blossoms in broad flat heads of beautiful deep red color. A perpetual bloomer. July. 18-24 in., 70c each, \$5.50 per 10.

SPIREA AUREA (Golden)—The leaves are bordered with golden-yellow, particularly in June, when the branches are covered with small, double, white flowers. Very desirable for group planting. Price: 2-3 ft., 65c each, \$5.00 per 10.

SPIREA BILLARDII—Blossoms nearly all summer; rose-colored; fine, showy. July to September. Price: 2-3 ft., 65c each, \$5.00 per 10.

SYRINGA CORONARIUS AUREUS (Golden Syringa)—A dense growing form, with clear, golden-yellow foliage well retained in color all summer. One of the best golden-foliaged shrubs offered. 2-3 ft., \$1.00 each, \$9.00 per 10.

TAMARIX AFRICANA (Africana)—Thrives in any soil. The foliage is handsome. The flowers are small, borne in spikes in May. Its habits are upright. Price: 2-3 ft., 65c each, \$5.00 per 10.

SUMAC, CUT-LEAVED (Rhus Laciniata)—A hardy plant, with beautiful, fern-like leaves, milky white on under side, changing to a brilliant scarlet in autumn. Price: 3-4 ft., \$1.00 each.

WEIGELIA CANDIDA—Of vigorous habit; flowers pure white and produced in great profusion in June, and continues to bloom at intervals through the Summer. 2-3 ft., 65c each, \$5.00 per 10.

SPIREA COLLOSSA RUBRA—Desirable because it blooms nearly all summer. The flowers are rose-colored, borne in panicles. A very free grower. June and July. Price: 18-24 in., 60c each, \$5.00 per 10.

SPIREA PRUNIFOLIA (Bridal Wreath)—Beautiful white flowers, double and very profuse. Blooms in May. Foliage, scarlet in autumn. Price: 2-3 ft., 65c each, \$5.50 per 10.

SPIREA THUNBERG'S (Thunbergii)—A Japanese species of small size with numerous slender branches, somewhat drooping, forming a dense feathery bush. Narrow linear leaves, bright green fading to orange and scarlet in autumn. Small white flowers in early May. The first Spirea to bloom. Price: 18-24 in., 50c each, \$4.00 per 10; 2-3 ft., 65c each, \$5.00 per 10.

SPIREA VAN HOUTTE—The finest of all Spireas, a most charming and beautiful shrub; resembles a fountain with white flowers in May and June. Extraordinarily profuse in bloom; plant is a vigorous grower and very hardy. Makes an attractive hedge and is very beautiful for mass planting. Prices: 18-24 in., 35c each, \$2.50 per 10, \$20.00 per 100; 2-3 ft., 50c each, \$4.00 per 10, \$35.00 per 100.

SYRINGA CORONARIUS (Mock Orange)—Early June. Fragrant, pure white flowers, in dense clusters, so numerous as to bear the branches down when flowering. One of the best. 2-3 ft., 65c each, \$5.00 per 10.

WEIGELIA ROSEA—An old garden favorite; has beautiful large rose-colored flowers. Distinctive; very hardy. Prices: \$4.00 per 10; 2-3 ft., 65c each, \$5.00 per 10.

WEIGELIA EVA RATHKE—A charming, new Weigelia; flowers, brilliant crimson; a beautiful, distinct, clear shade; mid-summer. Prices: 18-24 in., 80c each, \$6.50 per 10.

WEIGELIA NANA (Variegated)—Of dwarf habit; finely variegated foliage which lasts the entire season. Flowers rose-colored. Leaves bordered with yellowish white. June. 2-3 ft., 75c each, \$6.00 per 10.

JAPAN QUINCE

SPIREA—ANTHONY WATERER

Hardy Perennials and Old Fashioned Flowers

ONE of the most beautiful and cherished pictures one retains on memory's wall is the old fashioned garden at Grandmother's. The delightful fragrance and the many hued flowers entranced and delighted. Now, fashion has again changed and in place of the stiff, conventional garden, the old-fashioned informal garden has again come into its own and we can now bring into reality in our own garden the picture so long carried only in memory.

Perennials and bulbs are easy to grow, require no special care and once planted are permanent and the most satisfactory plants in the garden. Either as an informal garden, a border or combined with shrubbery the effect is most pleasing. You will have a wonderful mass of color and an unfailing supply for cutting.

ACHILLEA RUBRUM (Milfoil or Yarrow)—Rosy pink flowers in compact heads. Price: 30c each, \$2.50 per 10.

ACHILLEA, P. PLENA—"The Pearl." Double pure white flowers. Especially good for cut flowers. Price: 30c each, \$2.50 per 10.

ACHILLEA, TOMENTOSA—Bright yellow flowers. Price: 30c each, \$2.50 per 10.

ANCHUSA (Dropmore)—Flowers rich blue, growing 3 to 5 feet high. Blooms throughout the summer. Price: 30c each, \$2.50 per 10.

ANEMONE (White)—Large white flowers with yellow stamens. Excellent for cutting. Price: 30c each, \$2.50 per 10.

ANEMONE (Pink)—Semi-double flowers, large, very attractive. Price: 30c each, \$2.50 per 10.

ANEMONE (Whirlwind)—Well shaped double white flowers. Price: 30c each, \$2.50 per 10.

HARDY ASTER (Michaelmas Daisy)—A beautiful tall growing native plant, blooming in the late summer and fall when flowers are scarce. Very showy and of easiest culture, succeeding in any open, sunny position. Colors: pink, white, blue, lavender. Price: 30c each, \$2.50 per 10.

BLEEDING HEART (Dicentra)—An old favorite. Flowers heart-shaped in long, drooping racemes, rose color. Very fine for border plants. Price: 60c each, \$5.50 per 10.

BLUE BIRD FLOWER—Should be in every garden. Fine for border planting. The foliage is a very attractive yellowish-green; blue flowers borne on long compact spikes. Blooms freely during July and August. Price: 35c each, \$3.00 per 10.

HARDY CARNATIONS—Excellent for planting in garden after danger from frosts is past. Will bloom abundantly from July until late Fall. Excellent also for forcing indoors for Winter. Colors: red, white. Price: 35c each, \$3.00 per 10.

COLUMBINE (Aquilegia)—An old garden favorite and one of the most desirable of the hardy garden plants. Will thrive well in sandy locations where most plants cannot grow. The peculiar shaped flowers with their long, slender spurs are produced in great abundance on long, graceful stems. A beautiful combination of colors in almost every shade imaginable. Useful for cut flowers. Price: 25c each, \$2.00 per 10.

CAMPANULA (Bellflower)—Pleasing tropical effect. Price: 35c each, \$3.00 per 10.

CANTERBURY BELL—The most beautiful border plant in cultivation. Flowers very large and bell-shaped; blue, white and rose colored. Price: 30c each, \$2.00 per 10.

CANDYTUFT SEMPERVIRENS (Iberis)—A distinctive dwarf plant used in gardens and lawns for border purposes. Foliage almost completely hidden

EARLY CHRYSANTHEMUMS

with the white mass of flowers. Price: 20c each, \$1.50 per 10.

CHRYSANTHEMUMS (Grandmother's Hardy Garden Mums)—Bloom profusely late October and November after all tender flowers have been frost killed. Their beautiful bright flowers give the final flame of color to the garden before it is covered with its mantle of snow. Especially good for cut flowers, will last a long time in water.

AUTUMN BEAUTY—Golden Brown

GOLD QUEEN—Clear Yellow

FAVORITE—Bright Pink

KLONDIKE—Deep Brilliant Yellow

ROSEA—Bright Red.

SNOWCLAD—Pure White

Price: 30c each, \$2.50 per 10.

Hardy Perennials and Old Fashioned Flowers—Continued

DELPHINIUM

DELPHINIUM or LARKSPUR—The hardy Larkspurs are easily among the finest of all our perennial plants. The prevailing colors are rich, clear shades of blue. The taller kinds furnish long spikes of bloom that are strikingly decorative and last a long time as cut flowers. The plants have a long season of bloom, which can be greatly prolonged by keeping the seed stalks cut out and supplying plenty of water. The dark, handsome foliage is neat and attractive throughout the whole season. The plants are perfectly hardy. Bloom from June until frost. Price: 25c each, \$2.00 per 10.

DIGITALIS or FOXGLOVE—The Foxgloves are quite stately and highly ornamental plants when well grown, with flower stems at least three feet in height. They are fine for the mixed border or planted singly in half shady places near a walk or drive. The racemes of the flowers are often two feet in length, containing scores of prettily spotted thimble-shaped flowers. Perfectly hardy. Pink, white and purple. Price: 30c each, \$2.50 per 10.

EULALIA JAPONICA (Ornamental Grass)—Long, narrow green leaves which curve gracefully downward, 4 to 6 feet long. A vigorous grower with a large feathery tuft or plume surmounting each tall stem.

FUNKIA (Day Lily)—A beautiful, hardy plant valuable alike for its white, lily-like flowers and for its dense, glossy foliage. Flowers very fragrant. A good border plant or singly for specimen. Will thrive in shady spots as well as in the sun. Price: 35c each, \$3.00 per 10.

"OLD TIME FAVORITES OF THE OLD TIME GARDEN."

COLLECTION NO. 380

3 Delphinium or Larkspur

3 Foxglove

3 Phlox

3 Canterbury Bell

3 Hollyhocks

3 Japan Iris

3 Shasta Daisy

3 Coreopsis

Price for the Group, \$4.75

COREOPSIS—Yellow. One of the most popular hardy plants. The flowers are of a rich golden yellow, of graceful form and invaluable for cutting; in bloom from June until Autumn. It succeeds everywhere. Height 1½ to 2 ft. A group of these plants furnish an unending mass of rich, flowering color. Grow vigorously in any sunny situation. Price: 25c each, \$2.00 per 10.

CANNAS—Tall and vigorous, furnishing a wide range of color, fine foliage of fine proportion almost entirely concealing the ground; flower trusses are large and free. Colors: light crimson, deep vermillion, orange-scarlet, yellow. Price: 35c each, \$3.00 per 10.

CHINESE LANTERN PLANT (Physalis)—A highly ornamental plant forming a dense bush about 2 feet high, producing freely, bright orange-scarlet lantern-like fruits which, when cut, will last all winter. Price: 35c each, \$3.00 per 10.

DAHLIA—Long a favorite in the old-fashioned flower garden and again much in favor. No flower garden is complete without its many colored flowers and bright foliage. Of easy culture and requires very little care. Colors: yellow, lavender, purple, red, white, pink, variegated red and white, lavender and white. Order by color. Price: 40c each, \$3.00 per 10.

GAILLARDIA or BLANKET FLOWER—Among the most attractive and effective of our hardy perennial plants. Will thrive in almost any position or any soil. One mass of bloom from June till Autumn. The gorgeous flowers, 2 or 3 inches in diameter, dark red, brown in center with bands of crimson-orange and vermillion, are borne on stems 18 to 24 inches long. When used for filling in front of shrubbery, Gaillardia adds a dash of color which is very effective. Price: 25c each, \$2.00 per 10.

GOLDEN GLOW—A large, showy plant attaining in good soil a height of 5 to 6 ft. the same season planted. Flowers a deep golden color, resembling yellow chrysanthemums. A profuse bloomer; excellent for cutting. Price: 25c each, \$2.00 per 10.

GYPSOPHILA (Baby's Breath)—*G. paniculata*—A beautiful, old-fashioned plant, possessing a grace not found in any other perennial. When in bloom, during August and September, it forms a symmetrical mass 2 or 3 feet in height of minute, pure white flowers, forming a gauze-like appearance. When cut it is exquisite in connection with other flowers. Will thrive in any soil in a sunny position. Should be in every garden. Price: 30c each, \$2.50 per 10.

Hardy Perennials and Old Fashioned Flowers

GLADIOLI—No garden is complete without these showy summer-flowering bulbs which can be grown with very little care. Will thrive in any rich light garden soil, exposed to the sun. If your garden is heavy, work in some well rotted-manure. Planting can be done, just as soon as the frost is out of the ground in the Spring. Set bulbs 2 to 4 inches deep and 6 to 9 inches apart.

STANDARD GLADIOLA MIXTURE

18 Bulbs for \$1.00

This assortment contains 18 varieties, our selection, no two alike. Put up in attractive boxes, that make beautiful gifts.

GLORIOUS GLADIOLA MIXTURE

25 Bulbs for \$1.00 100 Bulbs for \$3.50

This group contains all colors and types. Bulbs of many high priced varieties are included. In lots of 100, we guarantee to send at least 20 varieties.

HELEBORUS (Christmas Rose)—Most valuable hardy plants on account of yielding with utmost freedom in early Spring, a season when flowers are scarce, their beautiful, large 2 or 3 inch blossoms. They succeed in any ordinary garden soil in a sheltered, semi-shady situation. Bloom in March and April. Price: 75c each.

HIBISCUS (Mallow)—H. Giant Red—Right in the middle of the Summer, the rich glorious red flowers of this wonderful creation are beginning to open, and they continue until frost arrives. Large flowers

6 to 10 inches in diameter. A very desirable specimen. Good as a border plant, succeeding in any sunny position, but doing best in a damp place. Grows 4 feet high, large foliage.

HOLLYHOCKS—Their colossal spikes of bloom, 5 to 8 feet high, produce bold and showy effects which cannot be secured with any other plant. Very effective among shrubbery, in the herbaceous border and along fences and boundaries. Double white, pink, red, purple and yellow. Price: 20c each, \$1.75 per 10.

Collection No. 390

AN IDEAL COMBINATION OF OLD-FASHIONED FLOWERS

24 CHARMING PLANTS FOR \$3.25

12 Lily-of-the-Valley—Fragrant bells of pure white. 12 Double English Violets, Large and Fragrant dark purple flowers.

Hardy Perennials and Old Fashioned Flowers

Iris Always Looks Artistic as a Border Planting

LILIES (Lilium)—There is no garden flower of greater charm and refinement than the lily. Its many distinct varieties cover the entire range of color, with exquisite markings and perfume. Their blooming periods vary from May until November so that one may select a succession covering the entire year.

LILIES AURATUM—(Gold band) very large, delicate ivory white, thickly dotted with rich, chocolate-crimson spots. A bright golden band runs through the center of each petal. Finest of the lilies. Price: 35c each, \$3.00 per 10.

LILIES CANDIDUM—The old-fashioned pure white garden lily. One of the hardiest. Price: 25c each, \$2.00 per 10.

LILIES CONVALLARIA (Lily-of-the-Valley)—This is often neglected and relegated to some poor, out of the way corner, but this popular and fragrant subject, if well treated, will show the effect by increased size, number and vigor of the flowers. It is especially suited for out-door planting which should be done before the end of April. Price: 20c each, \$1.50 per 10.

LILIES FLAVA (Lemon Lily)—The best known variety, very fragrant; deep lemon-yellow, flowers in June and July. Price: 25c each, \$2.00 per 10.

IRIS GERMANICA (Fleur de Lis)—The national flower of France. One of the most beautiful and showy of the early flowering plants, deliciously fragrant and fine for cutting. In beauty they rival the finest orchids. Should be in every garden. Price: 25c each, \$2.00 per 10.

IRIS JAPAN—The flowers differ from the above in being broad and flat. They exhibit the most delicate shades. Perfectly hardy and flower in great profusion in June and July. Price: 35c each, \$3.00 per 10.

Hardy Perennials and Old Fashioned Flowers—Continued

PHLOX (Hardy Perennials)—Among hardy perennial plants no class is of more importance than the Phloxes, succeeding in almost any soil and position and flowering through a long season; and, while they will continue in good condition and flower freely for many years without attention, yet they respond quickly to and are improved by liberal cultivation.

Althis—Tall, bright salmon-pink, violet eye. **Bridesmaid**—White, dark red eye. **Coquillecot**—Bright scarlet. **Pearl**—Pure white. **Panthenon**—Large, salmon-pink flowers. **Rhineland**—A new variety of great beauty; rare salmon-pink with a distinct claret-red eye. **Richard Wallace**—White, violet center. All varieties 25c each, \$1.75 per 10.

A PLANTING OF PHLOX

SHASTA DAISY—Flowers white, of medium size borne on long, wiry stems; blossoms when cut remain fresh and in good condition for from ten days to two weeks. A very hardy perennial; continues in bloom during several months. Price: 25c each, \$2.00 per 10.

TRITOMA (Red Hot Poker)—Of perfect form, brilliant scarlet, the opened lower petals merely being trimmed with orange. Bush-like foliage supports smooth, thick flower stalks a yard long with single fiery cone at the top. Tritomas are one of the great bedding plants; free and continuous bloomers, exceptionally fine for massing. Hardy if given protection. Roots winter best when buried in cool cellar. Price: 50c each.

VIOLETS—These old favorites should have place in every garden. Price: 15c each, \$1.25 per 10.

YUCCA FILAMENTOSA (Adam's Needle or Spanish Bayonet)—An impressive evergreen plant with long, blade-like needle tipped leaves, giving a tropical effect. Panicles of bell-shaped cream colored flowers are borne on long stalks 4 to 5 feet high. Entirely hardy and succeeds everywhere. Price: 50c each, \$4.00 per 10.

Peonies

A NOBLE perennial, bearing the largest individual flower in the garden. They are absolutely hardy anywhere and easy to grow, free from all diseases and insects. The blooms increase in size and number with the age of the plant. Excellent for cut flowers, lasting well. Foliage is ample and attractive until frost. Can be planted singly on lawn, in beds or for borders. Nearly all peonies are fragrant and have a wide range of color. We offer them in the following varieties. Prices, 75c each; \$6.00 per 10.

Achille—Delicate shell pink color. **Baron Rothschild**—Outside petals rose color with salmon center. **Duchess de Nemours**—Ivory white with green markings near center. **Duke of Wellington**—Yellow-white turning to pure white when in full bloom. **Festiva Maxima**—Pure white tinged with purplish-carmine near center. **Humei**—Cherry pink tinged with silver. **Jeanne d'Arc**—Soft pink and sulphur white with blush towards center. **Pres. Roosevelt**—Semi-rose type; deep, rich red. **Rubra Superba**—Deep, glossy crimson. **Rubra Triumphant**—Dark crimson leaning almost to purple.

FINGER LAKES MIXTURE—Where separate colors are not required, we offer our own collection of mixed colors, which are very desirable for mass planting. Good strong roots. Price: 50c each, \$4.50 per 10.

PEONY COLLECTION No. 410

3 Strong, 2 yr. plants for \$1.75

(Regular catalogue price \$2.25)

Rubra Superba—Rose red

Jeanne d'Arc—Soft pink, blush center

This group can be sent by prepaid parcel post

PEONY

Roses

ROSETIME corresponds with the time when all creation focuses its best. It is the flower time of the year. It is synonymous with the golden word, Summer. No home or garden is complete without the rose, the **QUEEN OF ALL FLOWERS**.

Roses, due to their different characteristics, are divided into several classes, the most important of which are the Hybrid Perpetuals, Hybrid Tea, Polyantha, Hardy Climbing, Moss and the Wild Roses and Rugosa variety.

The Hybrid Perpetual Roses are completely hardy and of vigorous growth. They are not perpetual bloomers, but if given good care and kept free from disease, they will often produce fine blooms in the late Summer and early Fall in addition to their wonderful and glorious burst of bloom in June. The Hybrid Perpetual flowers are bigger, fuller and more fragrant than any other class. These Roses are all field grown, budded stock that will bloom the first season.

Following varieties: 2 year old, No. 1, 85c each, \$7.00 per 10, \$60.00 per 100.

FRAU KARL DRUSCHKI

AMERICAN LEGION—Flowers bright cerise-red; very large and full. Garden bedding and cut flowers.

AMERICAN BEAUTY—The famous Florists' rose. A profuse bloomer; very large and full; brilliant pink to red; delightfully fragrant; borne on long, stiff stems, heavily clothed with foliage.

BARON DE BONSTETTEN—A very desirable hybrid perpetual. A beautiful, dark, velvety crimson flower. The flowers are very large, full and of a delicious odor.

CLIO—A large, globular rose; sweetly fragrant; of satiny flesh color, with a pink center, which, when two-thirds open, is perfectly cup-shaped. The beauty is enhanced by a rosette of foliage about it.

COQUETTE des ALPS—White flowers, shaded carmine; of medium size; cupped and borne abundantly all summer.

EARL OF DUFFERIN—Very large, full, rich, velvety crimson blooms, shaded maroon and borne on vigorous, free-flowering plants.

FRAU KARL DRUSCHKI (Snow Queen)—An immense, pure white, perfectly double rose, sometimes almost six inches in diameter; abundantly produced in June, and, if flowers are kept cut, continues blooming all Summer. Plant robust, vigorous and upright. The finest pure white rose in this class. One of the "favorite dozen."

GENERAL JACQUEMINOT ROSE—Good old

General "Jack" has marched to victory in many lands. His clear red blooms are just as bright today as seventy years ago. The plant is very hardy, but needs quite careful attention in thinning and pruning if the best-formed flowers are wanted, but many people let it grow at will and make a big, brave bush that blazes like a bonfire with its hundreds of bright red flowers in June. It mildews more than most other Hybrid Perpetuals unless checked.

HARRISON'S YELLOW—The yellow rose of our fathers. Small, semi-double, golden yellow flowers, borne in such profusion that the plants are a mass of color. Extremely fragrant.

JOHN HOPPER—Rosy red, changing to purple carmine; blooms of large, good form and sweetly scented. Plants are bushy, of medium height and very hardy.

MAGNA CHARTA—An old favorite. Very large, full globular bloom of rosy pink, often tinted carmine, remaining on the plants a long time in good condition. A vigorous grower, producing stout canes with many thorns and abundant green foliage.

MARGARET DICKSON—One of the most indispensable and highly prized of the Hybrid Perpetuals. A fragrant, white bloom with fresh colored center. The half-opened flowers are very lovely. Plants are vigorous, of compact habit, with large dark green foliage and producing many flowers.

MARSHALL P. WILDER—One of the most desirable in its class. Bright crimson-scarlet, very large, full, globular, with a strong, penetrating fragrance.

MADAME GABRIEL LUIZET—One of the better H. P. roses. Flowers light silvery-pink, shading paler at petal edges, moderately fragrant. A vigorous plant, bearing an abundance of bloom.

MRS. JOHN LAING—Very large, long pointed buds opening to immense, full, moderately fragrant and beautiful, soft pink flowers. A low but vigorous growing plant and a profuse bloomer.

PAUL NEYRON—One of the best for outdoor culture; probably the largest rose in commerce, the flowers sometimes being six inches in diameter. Fragrant, clear pink blooms, shading to rose; produced by a vigorous, hardy plant.

PERSIAN YELLOW—A small, fragrant, double golden yellow flower, borne in great profusion. Desirable for a hedge or for mixing in shrubbery.

ULRICH BRUNNER—Flowers rich red, fragrant, petals broad, round and thick. A vigorous grower and essential in any collection.

10 BEAUTIFUL ROSES IN RED, PINK, YELLOW AND WHITE

Hybrid Tea Roses—Everblooming Bush Roses

This class of roses is noted principally for its free and everblooming characteristics, and are commonly called "Monthly Roses." They bloom early and continue to bloom throughout the Summer. They are not as hardy as the Hybrid Perpetuals, but can be successfully grown in cold climates, if afforded winter protection.

Price, \$1.00 each: \$8.50 per 10: \$70.00 per 100

COLUMBIA—The flowers are large, fully double; bright lively pink in color; fragrant and borne until late Fall. A strong grower, almost thornless.

FRANCIS SCOTT KEY—An outstanding variety; extremely large bloom of a rich, crimson-red color; full, very double; borne on long stems of very good lasting quality.

GRUSS AN TEPLITZ—An extremely useful and dependable variety, succeeding well all over the United States. A profusion of beautiful, clear crimson scarlet, fragrant flowers are borne from June until frost on a vigorous and shapely plant. An excellent border and useful also as a hedge, if not cut back.

HERMOSA—An old, but very desirable rose for borders and beds, as it produces a continuous supply of light blush-pink blooms from June until frost. Works well with Gruss An Teplitz as a bedding rose.

J. L. MOCK—A dependable rose; very large, full and fragrant; petals silvery rosy-white inside, outside carmine-pink. A good bedding variety and a continuous bloomer.

KAISERIN AUG. VICTORIA—A great favorite. Large, double white blooms on long stems; fragrant.

KILLARNEY—Another sport of Killarney, with flowers of somewhat darker, clearer pink. Blooms large, well-formed on vigorous, free-flowering plants.

LA FRANCE—Unusually large, long-pointed buds, on long stems; flowers large, very full; the petals bright pink on the outside, silvery pink inside, a very pleasing combination; fragrance unique and delightful.

LOS ANGELES—One of the new garden roses. Its color is a luminous flame pink, toned coral, shaded translucent gold at base of petals. An upright, sturdy grower, bearing perfect, fragrant flowers on strong stems. Desirable in every garden.

MAMAN COCHET—A famous, dependable rose. Large, full coral-pink blooms flushed with light carmine, mingled with yellow; fragrant; petals broad, thick, shell-like; magnificent, long-pointed buds.

MME. CAROLINE TESTOUT—Blooms all Summer on strong, vigorous plants. The large, rounded flowers are bright satiny rose, with darker center, and edges of petals bordered with soft carmine-pink.

MRS. AARON WARD—A most desirable and dependable rose that will probably produce more flowers than any other yellow rose. Semi-double, cup-shaped, deep Indian yellow flowers; fragrant; blooms until frost.

OPHELIA—This highly desirable rose is successful for out-door as well as for greenhouse culture. The beautifully formed, salmon-flesh flowers are borne on

long, stout stems and are freely produced until frost. Large, dark green, leathery foliage; plant of vigorous, upright habit.

PAPA GONTIER—A worthy old-timer, having large, bright crimson, semi-double flowers on strong stems. A constant bloomer; vigorous grower. Deservedly popular in the South.

RADIANCE—Pink; vigorous, upright, bushy plants bearing a continuous supply of very large, beautiful, light silvery pink to salmon pink flowers on long stems. A good bedding variety.

RADIANCE RED—As good as its parent, Radiance, in habit of blossom and growth. Lovely deep red with an intense fragrance.

SOLEIL d'OR—Beautiful, long-pointed buds, opening to very large, full orange yellow flowers that vary to ruddy gold. A vigorous, upright grower with notable color.

SUNBURST—Bright, glowing orange blooms, paling slightly at edge of petal, gives an excellent imitation of a real sunburst. Leathery, bronzy foliage.

WHITE KILLARNEY—Has the same beautiful flowers as the Killarney, but pure white and borne in abundance. A dependable American rose.

WILLIAM R. SMITH—Creamy white, suffused with bright rosy pink; medium sized, double flowers that open full on long, strong stems; bushy habit, blooming moderately free until frost.

Moss Roses

[Prices, 2 year old No. 1, 75c each, \$7.00 per 10.]

THE characters of the Moss Roses are caused by the development of an unusual number of glands, and these glands secrete and give off a very delightful odor. The blooms are attractive in themselves, but having the blooms surrounded by fragrant crested or mossing gives them added attraction.

BLANCHE MOREAU—Large, perfectly formed, pure white, very fragrant double flowers in large clusters. The plants are vigorous growers.

CRESTED MOSS—Rose colored, sweetly perfumed flowers with beautifully crested buds. The plants are moderate growers and free bloomers.

SALET—Large, full crested buds, opening to large, flat, attractive rose pink blooms that are produced by vigorous plants.

The Rugosa Rose Hybrids

Prices, 2 year old No. 1, each, \$1.00; per 10, \$8.00; per 100, \$70.00.

BELLE POITEVINE—Clusters of large, semi-double, open bloom of very dark crimson on medium long, strong stems. The plants bloom moderately, but continuously all Summer.

CONRAD F. MEYER—Very large, double, showy, clear silvery rose flowers, strongly fragrant, on long, strong stems. The canes are frequently eight feet in height and if carefully trained, can produce some notable garden effects.

F. J. GROOTENDORST—Beautiful, small red flowers in clusters, with the edge of each petal serrated. The plant is a strong grower and bushy, with leathery foliage, and blooms continuously until frost.

RUGOSA REPENS ALBA—Large, single flowers in clusters on short, strong stems. Vigorous, trailing plants that grow 12 to 15 feet a season.

RUGOSA RUBRA—Large, beautiful, single flowers of clear pink to bright crimson; blooms continuously from June until September, followed by attractive red fruits in Autumn.

The Polyantha Roses

CLOTHILDE SOUPERT—An unusually full and very double pearly white rose, shading pink in the center, with delicate fragrance. Height 10 to 20 inches.

JEANNE d'ARC—A pure white seedling; flowers full, fragrant.

MME. NORBERT LEVAVASSEUR—The first Baby Rambler and still held in high esteem. Rich, rosy crimson flowers. A veritable bouquet.

PERLE ORLEANAISE—A bright salmon-pink, double rose, shaded yellow at the base of the petals.

The Wild Rose or Rose Species

2 year old, No. 1, 40c each, \$3.50 per 10.

MULTIFLORA—Large, pyramidal clusters of small white flowers, with numerous yellow stamens. A vigorous growing plant, with climbing habit, well furnished with lustrous green leaves and an abundance of flower clusters. The small, roundish fruits are red and hang on for a long time.

WICHURIANA—The Memorial Rose. Beautiful fragrant pure white flowers, with a mass of golden stamens, borne in great profusion on a true trailing plant and having dark green, glossy foliage, almost evergreen. One of the latest roses to bloom.

Climbing Roses

Prices, 2 year old, No. 1, 85c each; \$7.00 per 10.

EXCELSA RAMBLER

CLIMBING AMERICAN BEAUTY—The moderately fragrant, rich carmine 3-4 inch flowers are produced in great abundance. It will succeed in almost any situation and makes a very vigorous growth.

CRIMSON RAMBLER—Great masses of crimson, semi-double flowers are borne by these vigorous plants. Desirable pillar and porch plant.

DOROTHY PERKINS—One of the most notable climbing roses. Clear cherry-pink, slightly fragrant; borne in great profusion and lasts a long time. The plant makes a very strong growth; foliage is glossy, bright green, and persists until cold weather.

DR. VAN FLEET—Probably the best climbing rose in cultivation. Perfectly formed, long-pointed, deep pink buds on long stems, with several in a cluster, that opens a lighter shade of pink. It is a vigorous grower with glossy, dark green foliage. It is a delight to the eye all Summer.

EXCELSA—An intense crimson, with the edges of the petals a little lighter, produced in immense clusters. Foliage glossy.

FLOWER OF FAIRFIELD—Carmine-crimson, semi-double to double flowers in large, compact clusters; foliage normal; seldom a heavy bloomer.

MRS. ROBERT PEARY—A beautiful, perfectly shaped climbing rose of waxy white, shading to soft primrose.

PAUL'S SCARLET CLIMBER—The brightest and purest red of all the Pillar Roses. Flowers are borne in clusters that retain their color until they fall, the color being intensified by the numerous yellow stamens. A vigorous grower and a good bloomer.

TAUSENDSCHON—Or Thousand Beauties, vigorous and desirable Hardy Climbing Rose; almost thornless. The buds are cherry pink, opening to softer shades; has glossy, light green foliage. A highly desirable and distinctive rose for covering walls, fences, porches and pergolas.

WHITE DOROTHY—Closely resembles the Dorothy Perkins, except for its immense clusters of pure white flowers. The most valuable white climber of its class.

Pot Grown Roses for Outdoor Planting

THESE grand husky Bench Grown roses have sprung into immense popularity for quick blooming, wonderful colorings, and pleasing fragrance. They are propagated on their own roots. No briars or suckers will grow from the roots, like the grafted or budded plants. We highly recommend this class of roses to the amateur planter. By planting these specials, you can have a magnificent display of fine roses at moderate cost. Very attractive when planted in pots for inside culture. These roses sell rapidly. Our advice is to ORDER NOW while our assortment is complete. We offer the following list of varieties, which we especially recommend to rose lovers, for 45c each or \$5.00 per dozen.

KILLARNEY (Pink)

- ANNE de DIESBACH (H.P.)—Brilliant pink.

House Plants for Your Sun-Room

WE have a splendid supply of this class of plants for inside culture, but we advise you to **ORDER EARLY** while our assortment is complete. There is always some corner in some room that can be made more cheerful with these beautiful house plants. The varieties we list here are very showy and attractive and make a glorious addition to your sun-room.

BEGONIA BABY RUBRA—This type of Begonia is very compact in growth, forming a dense, well-proportioned bush with rich green foliage, spotted with silver. The flower is rosy-flesh color, shaded with a silvery pink and enlivened with dense clusters of yellow anthers. It blooms continually. Price, 40c each.

NEW GIANT COLENS (Christmas Gem)—Leaves immense, 8 to 12 inches long. Cannot be excelled as a pot plant. Of strong vigorous habit, growing from 2 to 3 ft. high, with bright carmine leaves, shading off to a deep maroon, the margin being yellow and green, and the whole leaf having a rich velvety lustre. Price 35c each.

Hardy Ferns

Successful Fern growing always hinges on whether your Ferns are clean from the white fly. Our ferns are absolutely clean. Better plant Finger Lakes Ferns—always good, always grow.

BABY'S BREATH (Lace Fern)—This variety has fine, delicate foliage, and is so dainty in texture that a baby's breath would set its fluffy foliage in motion. Splendid for use in fern dishes. Price 25c each.

BOSTON PLUME FERN—Its gracefully drooping fronds' compact growth, which does not decay in the center, makes this variety a durable house fern. It is a rapid grower and quite distinct. Price 30c each.

TEDDY JUNIOR—No dwarf fern can equal it. Its distinguishing characteristics are its beautifully cut dark green leaves, its dense, compact growth. Very beautiful house fern. Price 30c each.

Double Flowering Geraniums

AMERICAN BEAUTY (new)—Same color as the famous American Beauty rose. A very free bloomer. Price 30c each.

HELEN MITCHELL (new)—This new variety is the clearest possible shade of scarlet, borne on gigantic trusses. 30c each.

JEAN VIVAND—Best large flowering double pink geranium in cultivation. Rich deep, rosy pink. Price 25c each.

LA FAVORITE—The finest double white geranium. Large trusses of purest snow-white. This variety is a charming bloomer both winter and summer. Price 25c each.

SPECIAL—Any 3 of the above geraniums, 70c each; 10 for \$2.00.

Lady Washington Geraniums

These differ from the common Geranium in both foliage and flower. The foliage of this class is distinctive and beautiful and the flowers are very striking.

EASTER GREETING—A novelty geranium with florets fiery amaranth red. Price 45c each.

GLORY—This combination of color, apple-blossom pink with blotches of carbon-brown, joined in enormous clusters with the beautiful foliage, remind one of a Rhododendron cluster. Price 45c each.

PRINCE—Immense large flowers of rich purple with velvety black blotches. Remarkably robust habit. Very striking. Price 45c each.

Hydrangeas for House Culture

BOUQUET ROSE—Large, well-formed trusses; rosy amber turning to bright pink. Price 50c each.

RADIANT—Very deep carmine. Price 45c each.

SATINET—A beautiful satin rose. Price 50c each.

OTASKA—The old standby. Large heads of soft pink. Price 25c each.

CHINESE PRIMROSE—No collection of winter blooming plants is complete without these grand flowers. These giant flowers come in three colors, white, pink and red. Price 25c each.

Popular Hardy Fuchsias

BLACK PRINCE—Flowers carmine rose; extra large 30c each.

PHENOMENAL—Bright scarlet flowers, with rich purple corolla, 30c each.

WAVE OF LIFE—Golden foliage, flowers, dark purple. Price 30c each.

Trailing Ornamental Vines

TRAILING DUSTY MILLER—Snow white foliage; splendid trailing plant for boxes and baskets. Price 25c each.

TRADESCANTIA BI-COLOR (Wandering Jew)—White and green. Price 20c each.

VINEA MAJOR VARIEGATA—Beautiful variegated green and white foliage; strong trailing habit. Very popular for baskets and vases. Price 20c each.

Hibiscus Peachblow

Entirely new and beautiful shade. Flowers are double and rich clear pink in color. A fine plant for the home or porch. Price 25c each.

Otaheite Orange

Most novel and beautiful dwarf orange plant. Blooms and fruits freely. Has an abundance of far-famed delicate and fragrant orange blossoms. Almost continuous bloomer. Price 35c each.

Plant in Fall—Bloom in the Spring

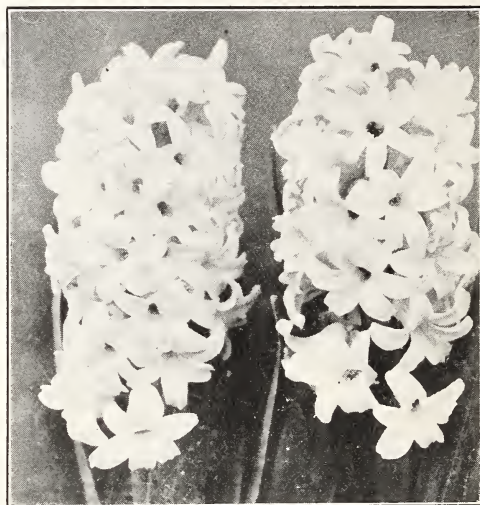

Bulbs for Fall Planting Only

WE are pleased to offer to our friends and customers the following selected bulbs imported by us direct from Holland. Extra large, fine bulbs.

CROCUS—Delicate in form and varied and gay in color; the earliest flower of spring. Plant in the autumn about three inches apart and cover with two inches of soil. They may be easily planted in the sod after it has been softened by rains late in the fall and they are through blooming before the lawn requires mowing in the spring. Cover in fall with straw or leaves to prevent the bulbs being thrown above the soil by frost. Assorted colors. Prices: 35c per 10; \$3.00 per 100; \$25.00 per 1000.

HYACINTHS—The most popular bulb grown. For house culture, place bulbs in glasses of water, the base of bulb just touching the water, and place in a cool, dark, airy cellar until the roots have nearly reached the bottom of the glass, after which place in the sunniest situation possible. For out-door culture plant from 5 to 6 inches deep. Assorted colors. Price: 25c each; \$1.50 per 10; \$13.00 per 100.

NARCISSUS (Daffodils)—Another popular bulb and deservedly so. Culture the same as for Hyacinths. Price: 10c each; 65c per 10; \$6.00 per 100.

HYACINTHS

TULIPS—Unsurpassed by any other flower in brilliancy and variety of coloring; comes into bloom almost with the first blush of spring. Nothing will delight the eye and give more satisfaction than a border or bed of these brilliant flowers. Plant in rich well stirred soil about 6 inches apart and 3 inches below the surface. We offer the following varieties and colors:

A GROUP OF DARWIN TULIPS IN MANY HARMONIOUS COLORS

DARWIN—Farncombe Sanders—Bright scarlet.
Margaret—Silvery pink.
White Queen.
Blue Aimable.
Pride of Haarlem—Carmine pink.
Sultan—Maroon-black.

BREEDER TULIPS—Panorama—Mahogany red.
Bronze Queen—Bronze, inside golden bronze.
Golden Bronze—Bronze yellow.

COTTAGE TULIPS—Inglescombe—Yellow.
Price: 50c per 10; \$4.00 per 100; \$35.00 per 1000.
